ADDENDUM · PORTFOLIO EXPANSION · 10 NOV 2026

Eight products, one standard: HeeLIKS and Vyaas AI join the portfolio

8
product decks on one design system (6 approved + 2 new)

78
new deck slides rendered and inspected in PowerPoint (44 + 34)

61
catalogue vNext slides, every one re-inspected

0
overflows, off-slide shapes, empty placeholders or negative extents

What changed in the portfolio

- HeeLIKS (inventory, POS and distribution) and Vyaas AI (enterprise AI assistant) were rebuilt on the locked design system. The only additions are two new product accents: Ocean #0369A1 and Iris #7C3AED.
- The approved catalogue was extended to vNext (52 → 61 slides). The six existing showcases are preserved; v1 is backed up.
- Product status and order were set by MavionTech (flagships first: Vortex HRMS, ProtonNxt, PragyanNxt, Agastya) and are applied consistently in the catalogue and introduction deck:
  Flagship · ready Vortex HRMS, ProtonNxt, PragyanNxt, Agastya
  Ready · available MavionLearn, SalesPulse CRM, HeeLIKS
  Premium · future Vyaas AI

Consistency correction

The v1 claim of “a dedicated database per customer in all six products” would be false for eight: Vyaas AI scopes data per organisation inside one application database. Every isolation statement in the catalogue is now qualified (slides 4, 6, 10, 49, 51 and 60). The Vyaas AI deck states organisation scoping on slides 21, 29 and 30.

Records updated

- Master_Product_Inventory.xlsx: two product rows, two deck rows, source files, and a catalogue-status column for all eight products.
- Product_Asset_Mapping.xlsx: HeeLIKS (181) and Vyaas AI (31) screenshot-to-module sheets; asset gaps.
- v1 workbooks and this report's v1 are kept in Previous_Versions.

The new decks pass the same checks as the original six

DELIVERABLE	LOCKED LAYOUTS & TYPE	MIDNIGHT + AMBER, PRODUCT ACCENT	ENDORSED FOOTER & CONTACT CARD	"(DEMO DATA)" ON SCREENS	NOTES WITH SOURCES	PLANNED ITEMS LABELLED	POWERPOINT QA
HeeLIKS	✓	✓	✓	✓	✓	✓	44 slides · min 9 pt · ≥241 DPI
Vyaas AI	✓	✓	✓	✓	✓	✓	34 slides · min 9 pt · ≥229 DPI
Catalogue vNext	✓	✓	✓	✓	✓	✓	61 slides · min 9 pt · ≥220 DPI

HeeLIKS · corrections from source

- Rebuilt from 54 to 44 slides; all 20 modules kept; five native diagrams added.
- Removed unsupported lines: "intelligent", "perfectly organised", "five industry editions", and the website's uptime and test counts.
- Pages of 3–4 unreadable thumbnails became large, content-fitted screens.
- Prices from the product code; roadmap tagged PLANNED.

Vyaas AI · corrections from source

- "5 plan tiers" corrected to 7, with prices in INR and USD.
- Isolation qualified as organisation-scoped; overlapping labels and the illegible wordmark fixed.
- New diagrams: cited answers, coding agent, sandbox layers, token optimiser, architecture.
- The PR claim is evidenced by the task rail "Opened PR #42" (demo data).

Every deck was rendered in Microsoft PowerPoint (COM), measured for text overflow and off-slide shapes, schema-validated, checked for negative extents and empty placeholders, and inspected slide by slide.

ADDENDUM · OPEN ITEMS

What MavionTech should confirm before wider circulation

ITEM	WHERE	EFFECT TODAY	OWNER
HeeLIKS live price list	HeeLIKS deck slide 41; catalogue slide 58	Prices from the product code, excluding GST	Commercial
Vyaas AI pricing and launch timing	Vyaas AI deck slide 26; catalogue slide 58	Shown as Indicative; Enterprise price on request	Leadership
Vyaas AI 'premium, future' positioning in its own deck	Vyaas_Final.pptx	Catalogue carries the label; the deck does not yet	Marketing
heeliks.com public copy	HeeLIKS close slide; contacts	Site was down during the audit; repo templates used	Marketing
'Inward Logistics' / 'Trackline' vs HeeLIKS	Catalogue slide 11	Names left as they are	Leadership
Vector logos (HeeLIKS, Vyaas AI)	All decks	PNG marks, sharp enough for screens	Brand owner
Earlier open items (SLA, certifications, price lists)	Report v1, page 11	Unchanged; still excluded	As in v1

Verdict. HeeLIKS, Vyaas AI and the catalogue vNext meet the same MavionTech standard as the six approved decks and are suitable for external circulation, subject to the commercial confirmations above. Vyaas AI must be presented as a premium product envisioned for the future.
