MavionTech
Momentum with Vision

MAVIONTECH BRAND SYSTEM · V1.0

Brand Guidelines

One identity for every MavionTech product, presentation and catalogue.

CONTENTS

How to use this guide

1 · Foundation

Who we are, personality and voice, using only official company statements.

2 · Logo

The MavionTech roundel, lockups, clear space, minimum size and misuse.

3 · Colour

Core palette, signal colours, usage ratios and contrast rules.

4 · Endorsed brands

Six product accents on one corporate system.

5 · Typography

Calibri for Office, Inter for web and print, and the hierarchy.

6 · Imagery

Iconography, the Orbit motif, screenshot treatment, diagrams, and what we never use.

Benchmarks for quality (not templates): Salesforce, Microsoft, SAP, ServiceNow, Stripe and Deloitte. The MavionTech identity is original: **Midnight + Amber**, real product proof, and quiet precision.

Momentum with Vision

Mission

Automate and simplify operational workflows with secure, extensible enterprise software that empowers teams to focus on what matters most.

Vision

Create intelligent digital ecosystems that help teams move faster, make better decisions, and transform the way organizations operate.

Promise

Production-grade UX, predictable performance, and maintainable integrations, built for real teams solving real problems.

Brand personality

- **Precise.** Specific capabilities, named modules, exact numbers with sources.
- **Calm and confident.** Generous space, few colours, no hype.
- **Proven.** Real screens with demo data, never mock-ups or stock photos.
- **Practical.** Built for Indian enterprises: INR, GST, statutory compliance, WhatsApp.

Voice rules

- Titles state outcomes ("Results day in hours, not weeks"), not module names.
- One message per slide; sentence case; no full stop at the end of titles.
- Never invent customers, statistics, testimonials or certifications. See the Claims Policy in the Portfolio Strategy.
- Write the company as **MavionTech**; legal entity **MavionTech Pvt. Ltd.**

Mission, vision, promise and tagline: maviontech.com (Company page), inspected 10 Nov 2026.

The MavionTech roundel

Rules

- **Primary:** amber roundel on Mavion Midnight. **Secondary:** on white or Paper.
- **Lockup:** roundel + "MavionTech" (bold) + "Momentum with Vision". The wordmark is set in type: no wordmark artwork exists yet.
- **Clear space:** at least ¼ of the roundel's diameter on all sides.
- **Minimum size:** 0.21 in (5.3 mm) in slide footers; 16 px on screen.
- **Endorsement:** every product deck carries the lockup on cover and close, and the small roundel + wordmark in the footer.

✕ Recolour, outline or add effects (glow, bevel, heavy shadow).

✕ Stretch, rotate or crop the roundel.

✕ Place it on busy screenshots or mid-tone backgrounds.

✕ Pair it with a product logo larger than the roundel on the cover.

Action required: the only logo file is a 359 px PNG. A vector (SVG/EPS) master and a monochrome version are needed before print production.

Midnight and Amber, with quiet neutrals

Mavion Midnight
#0B1A30

Primary dark. Covers, dividers, dark value slides, diagram emphasis.

Mavion Amber
#F5A623

Signature accent from the logo. Fills, numbers on dark, badges, CTA. Never body text on white.

Amber Deep
#A0680A

Amber for text and kickers on light surfaces (corporate decks).

Midnight Raised
#13284A

Cards and chips on dark surfaces.

Ink
#0F1B2D

Titles and primary text on light.

Slate 700
#3A4A63

Body text on light.

Slate 500
#5E6E86

Captions, footers, labels.

Slate 300
#C5CEDB

Connectors, disabled, dividers on light.

Line
#DCE3EC

Card and frame borders.

Mist
#EEF2F7

Placeholders, quiet panels.

Paper
#F6F8FB

Tinted slide background, cards.

White
#FFFFFF

Default content background.

Usage ratio

White/Paper surfaces ≈ 60% · Midnight ≈ 25% (covers, dividers, one dark slide per act) · product accent ≈ 10% · Amber ≤ 5%, the single sharpest point of attention on a slide.

Signal colours

Success #12A150

Warning #D98E04

Danger #D64545

Info #2F6FEB

Signals are for status in charts, tables and UI callouts only, never decoration.

Contrast and accessibility

PAIRING	USE	RULE
White on Midnight #0B1A30	Titles and body on dark slides	✓ Excellent contrast (AAA)
#A9B6C9 on Midnight	Secondary text on dark	✓ AA for ≥ 11 pt
Ink #0F1B2D / Slate 700 on White	Titles and body on light	✓ AAA
Amber #F5A623 on White	Never for text	✗ 2.0:1. Use Amber Deep #A0680A (4.7:1) for kickers on white
Midnight on Amber	Buttons, numbered badges	✓ AAA
Product accent on White	Kickers, numbers, icons	✓ All six accents meet 4.5:1 on white (4.6–9.6:1). On Midnight, use the accent only for fills and icons, never small text.
Product accent at 10–12% tint	Icon chips, highlight bands	✓ Icon drawn in full accent on the tint

Body text never goes below 11 pt on slides; captions 11 pt; footer 9 pt.

Six products, one MavionTech identity

Agastya
CLOUD SCHOOL ERP

#2563EB — Logo file needed

Preserved: the app and current deck primary blue.

MavionLearn
ENTERPRISE LMS · SKILLS & COMPLIANCE

#6D4AFF — Logo file needed

Refined from #5A4BF0 for clearer separation from Vortex indigo.

PragyanNxt
ASSESSMENT & CERTIFICATION

#1C3F94 — Logo + mark available

Preserved: sapphire from the PragyanNxt logo; its gold harmonises with Mavion Amber.

ProtonNxt
ENTERPRISE ATS

#0B8282 — Logo file needed

Preserved: teal from the current deck and app (#1BA6A6), deepened to meet 4.5:1 on white.

SalesPulse CRM
INDIA-FIRST SALES CRM

#D63B42 — Logo file needed

PROPOSED: coral 'pulse' (4.6:1 on white). The current indigo collides with Vortex/MavionLearn. Needs approval.

Vortex HRMS
UNIFIED PEOPLE PLATFORM

#4F46E5 — SVG mark available

Preserved: official mark gradient #4F46E5 → #0891B2 (vortexhrms.com).

What changes per product, and what never does

Product-specific

- Product name, logo/mark and category line
- Accent colour: kickers, numbers, icon chips, numbered pipeline steps, cover glow
- Screenshots and product-specific diagrams
- Footer label: "Product · Category"

Always MavionTech

- Midnight backgrounds, Amber signature, neutrals, typography, grid and margins
- Cover and close structure, MavionTech lockup and official contact card
- Screenshot frame, Orbit motif, icon style, footer and slide numbering
- Claims policy and voice

Naming

Agastya · MavionLearn · PragyanNxt (formerly Evalynx; never mention the old name on slides) · ProtonNxt · SalesPulse CRM · Vortex HRMS (apps: VortexGo, SnapLens). Corporate catalogue: "MavionTech — Enterprise Business Applications".

Calibri in Office, Inter on the web

Results day in hours, not weeks

Title · Calibri Bold 30 pt · Ink

EXAMS & REPORT CARDS

Kicker · Calibri Bold 11 pt · caps · +3 spacing · accent

Card heading

H3 · Calibri Bold 16 pt

Body copy explains the capability and its benefit in one or two lines.

Body · Calibri 14 pt (12.5 pt minimum inside cards) · Slate 700

257

Stat · Calibri Bold 44 pt · accent

Why Calibri

Calibri ships with every Microsoft Office installation on Windows and Mac. Decks therefore render identically for every salesperson and prospect, with no font substitution or text overflow. It is the presentation typeface for all MavionTech decks.

Inter for digital and print

Inter (SIL Open Font License) is the companion face for the website, PDF catalogue and documents, chosen for its similar humanist proportions. Fallback: Calibri, Segoe UI, Arial.

Never

Decorative or script fonts, more than one typeface in a deck, all-caps sentences (only kickers are caps), centred body text.

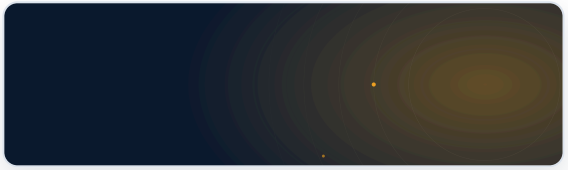

Line icons, the Orbit motif, and nothing decorative

Icons

Lucide line icons, 1.75 stroke, drawn in the product accent on a rounded-square chip of the same accent at 12% tint. On dark slides: white icon on a solid accent chip. One icon per idea; never emoji or clip-art.

The Orbit motif

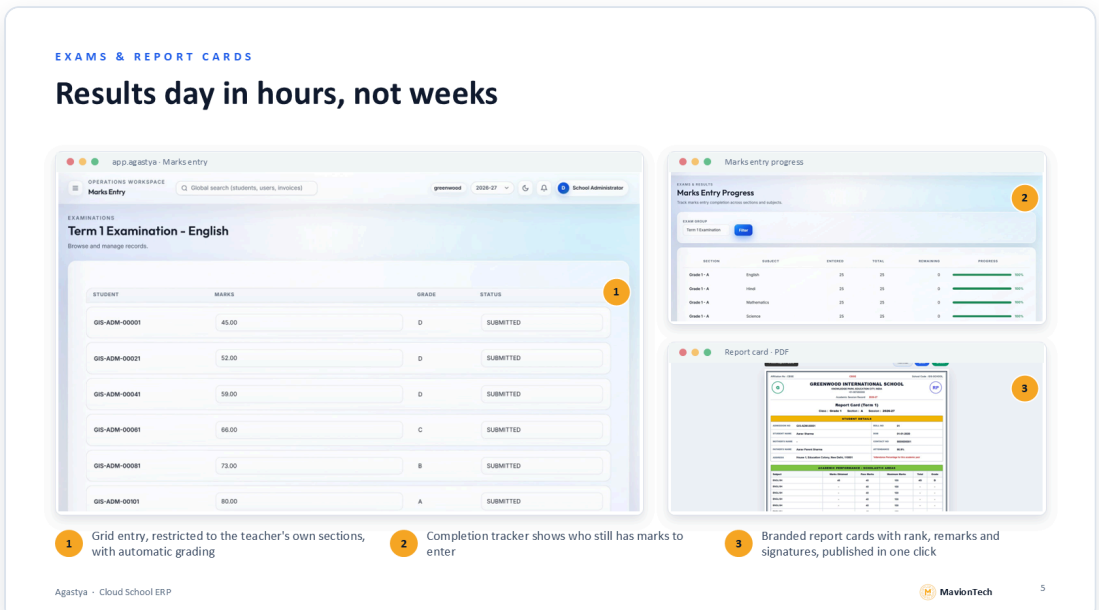

Concentric rings with a few amber nodes, drawn from the circuit ring in the MavionTech roundel. It appears only on dark covers, dividers and the close slide, together with one soft glow in the product accent. It is the only illustrative device: no abstract blobs, waves or stock art.

Imagery

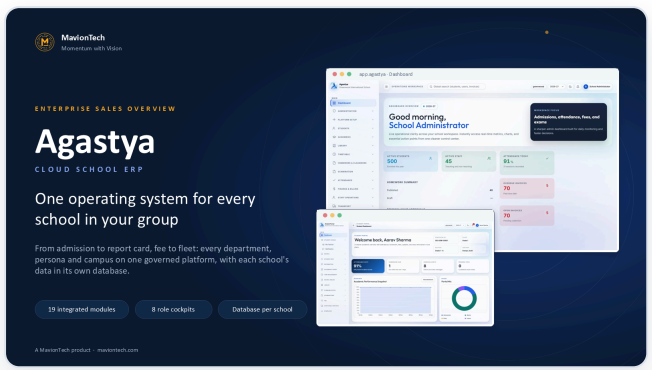

Real product screenshots with realistic demo data are the hero imagery. **No stock photography of people, offices or handshakes.** Diagrams are built with native shapes in the brand palette so they stay editable.

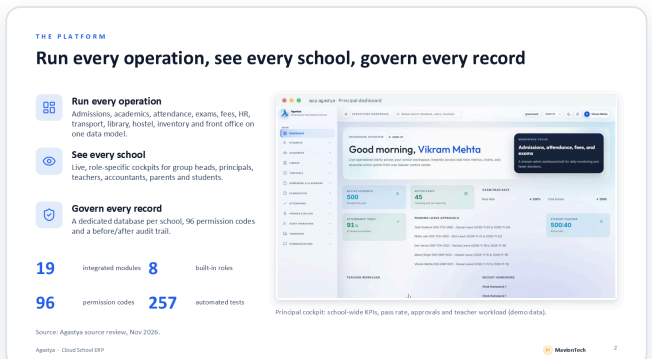

The signature frame: real screens, framed with care

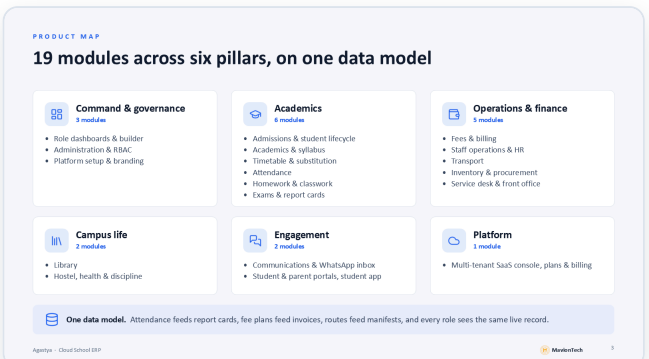

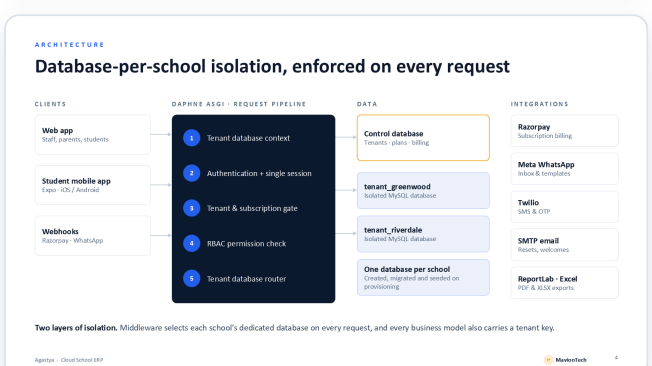

- **Frame:** white rounded rectangle (radius 0.08 in), 0.75 pt border #DCE3EC, slim chrome bar with three muted window dots and an optional page label, one soft shadow.
- **Crop:** top-anchored to the box, never stretched. Hero shots keep the app chrome; close-ups remove the sidebar.
- **Source:** at least 1,600 px wide (Agastya captures are 2,400 px).
- **Callouts:** numbered amber badges on the screenshot, matched by numbered captions below.
- **Data hygiene:** no real people or clients, no "demo"/"seed"/"QA" labels, no empty states, no error pages, no warnings such as "keys missing".
- **Caption** every screenshot (11 pt, Slate 500), and mark demo data as demo data.

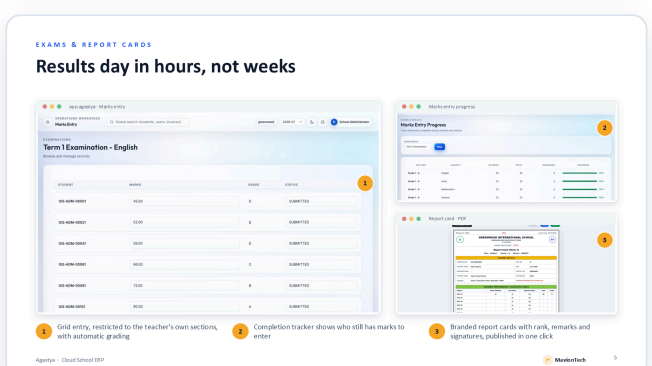

The six prototype slides

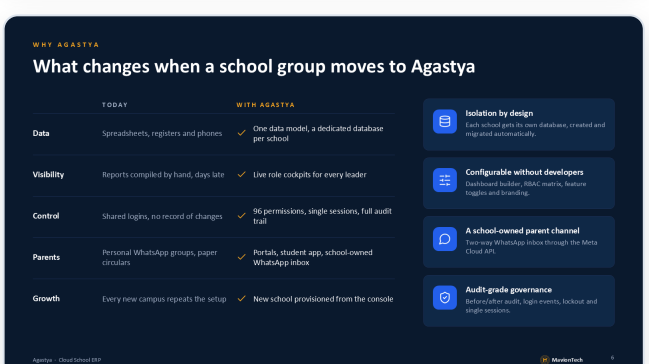

Agastya prototype: cover · overview · module map · architecture · interface showcase · value. Full specification in the Presentation Design System.

CONTACT STANDARD

The same contact card on every close slide
