MavionTech
Momentum with Vision

MAVIONTECH BRAND SYSTEM · V1.0

Presentation Design System

Canvas, grid, type scale, components and 16 reusable layouts for all six product decks and the corporate catalogue.

13.333 × 7.5 in widescreen, 0.6 in margins

THE PLATFORM

Run every operation, see every school, govern every record

Run every operation
Admissions, academics, attendance, exams, fees, HR, transport, library, hostel, inventory and front office on one data model.

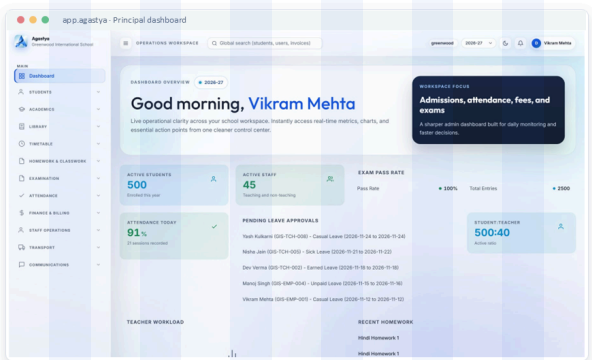

See every school
Live, role-specific cockpits for group heads, principals, teachers, accountants, parents and students.

Govern every record
A dedicated database per school, 96 permission codes and a before/after audit trail.

19	integrated modules	8	built-in roles
96	permission codes	257	automated tests

Source: Agastya source review, Nov 2026.

Agastya · Cloud School ERP

Principal cockpit: school-wide KPIs, pass rate, approvals and teacher workload (demo data).

MavionTech 2

TOKEN	VALUE
Canvas	`LAYOUT_WIDE` 13.333 × 7.5 in
Side margins	0.6 in (content width 12.13 in)
Kicker	y 0.50 in
Title	y 0.78 in, one line, max width 11.5 in
Content zone	y 1.72 – 6.75 in
Footer baseline	y 7.02 in
Grid	12 columns, 0.3 in gutter; 2-, 3-, 4- and 5-up splits
Spacing scale	0.1 · 0.2 · 0.3 (default gap) · 0.5 · 0.75 in

Nine styles, one family

STYLE	SIZE / WEIGHT	COLOUR	USE
Display	56 pt Bold	White	Product name on cover
Promise	26 pt Regular	White	Cover promise (≤ 2 lines)
Divider title	40 pt Bold + 72 pt amber number	White / Amber	Section dividers
Title	30 pt Bold	Ink / White	Every content slide, one line, outcome-led
Kicker	11 pt Bold caps, +3 spacing	Accent / Amber on dark	Above every title
H3	16 pt Bold	Ink	Card and feature headings
Body	14 pt (12.5 pt min in cards)	Slate 700	Descriptions, lists
Stat	44 pt Bold (28 pt inline)	Accent / Amber	Numbers with a source line
Caption / footer	11 pt / 9 pt	Slate 500	Screenshot captions, sources, footer

Twelve components cover every slide

Kicker + title

Kicker 0.3 in tall at y 0.50; title at y 0.78. No underline or accent bar beneath titles.

Card

Rounded rectangle r 0.10 in, Paper fill (White on tinted slides), 0.75 pt Line border, 0.25 in inner padding. No edge stripes.

Icon chip

0.50–0.56 in rounded square, accent at 12% tint, Lucide icon at 52% of the chip in the full accent.

Screenshot frame

See Brand Guidelines §6. Chrome 0.26 in, inset 0.04 in, one soft shadow (blur 14, offset 4, 12% opacity).

Numbered callout

0.34 in amber circle, Midnight numeral 11 pt bold; repeated on the screenshot and in the caption row.

Pill chip

0.38 in tall full-radius pill; on dark: Midnight Raised fill with #2E4468 border.

Stat tile

Number 44 pt + label 14 pt; one dark tile per row for rhythm; source line required.

Comparison row

Label / Today (muted) / With product (white or Ink, with amber check); 0.75 pt divider lines only.

Buttons (close)

Primary: Amber fill, Midnight text. Secondary: Midnight Raised, white text. 0.5 in tall, full radius.

Tables

Header caps 10 pt Slate 500 with Ink rule; rows 0.75 pt Line dividers; no vertical rules or zebra fills.

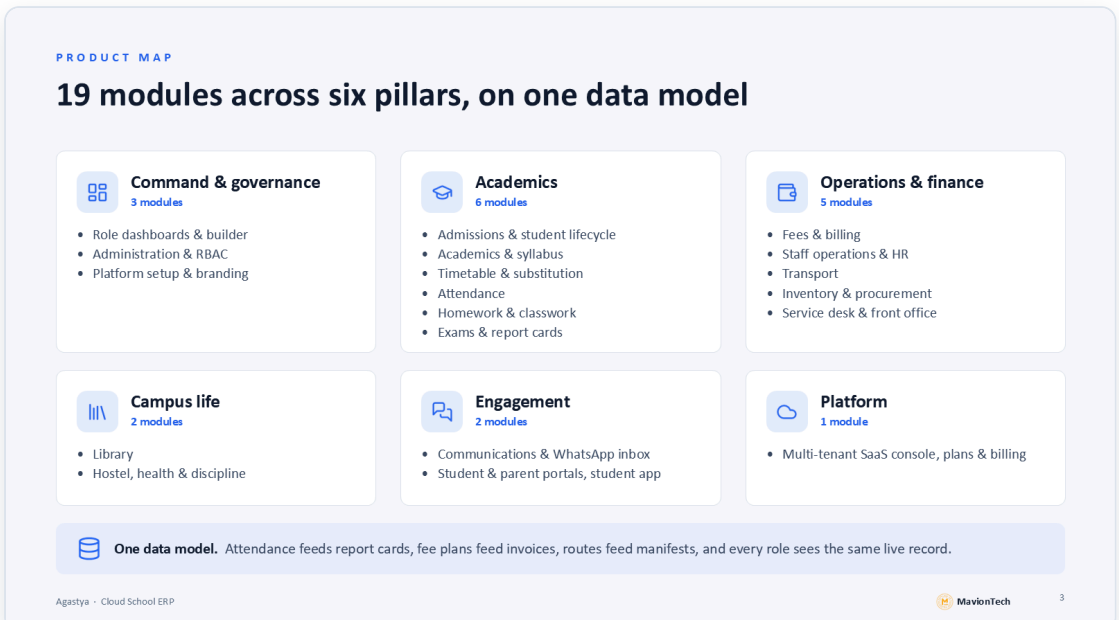

Charts

Native PowerPoint charts. Series: accent, then Slate 500, Slate 300. Signal colours for status only. Calibri, no 3D, no chart borders.

Diagrams

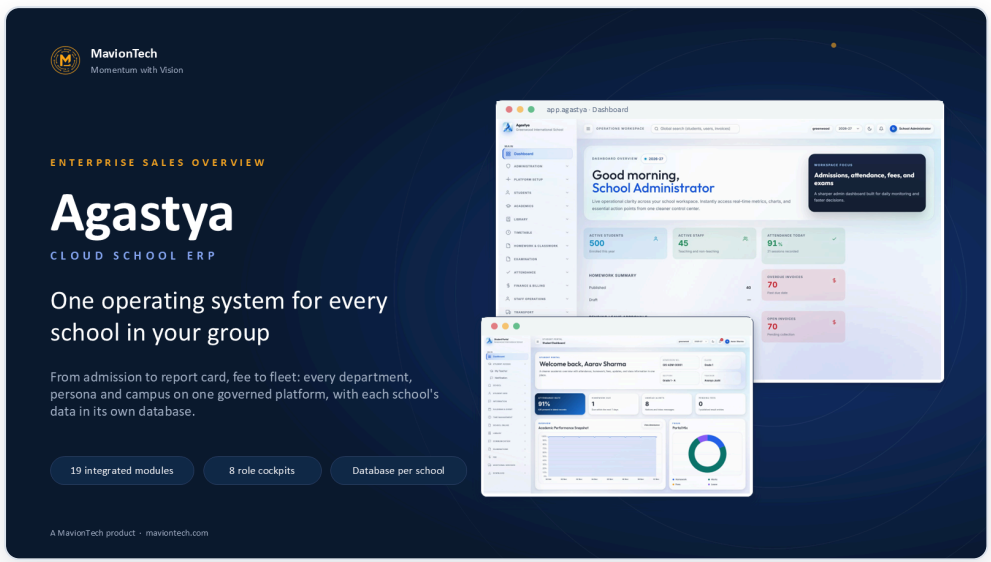

Native shapes, r 0.08 in boxes, 1.25 pt Slate 300 connectors with triangle heads; one Midnight block marks the core; amber outline marks the control element.

Quiet chrome, consistent position

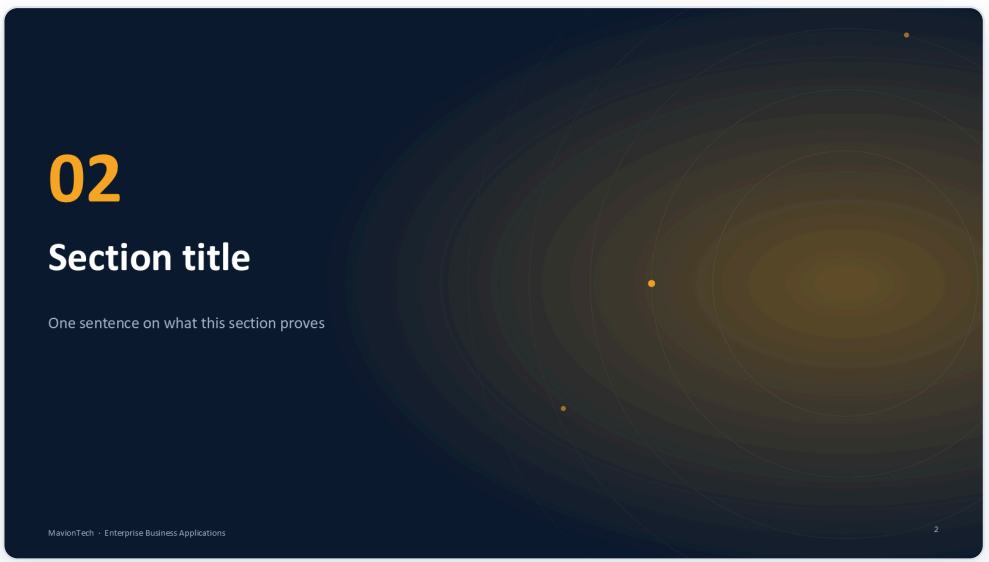

- **No header bar.** The kicker and title are the header.
- **Footer left:** "Product · Category", 9 pt Slate 500 (on dark: #A9B6C9).
- **Footer right:** MavionTech roundel (0.21 in) + "MavionTech" 9 pt bold, then the slide number.
- **Slide number:** plain arabic numeral at the right margin, 9 pt. Not shown on covers and close.
- **Sources:** 11 pt caption directly above the footer zone, never inside it.
- Footer, logo and number live on the slide layout, never typed on slides.

Midnight, one glow, the Orbit, and real product

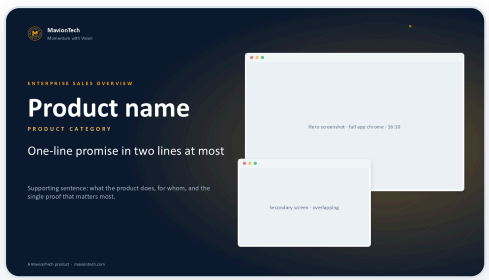

Cover · MT_COVER: lockup top-left, kicker, 56 pt product name, category, 26 pt promise, supporting line, three proof pills, two overlapping framed screenshots.

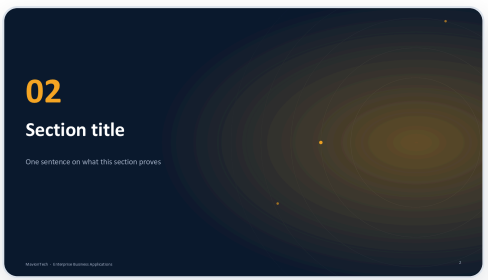

Divider · MT_DIVIDER: 72 pt amber section number, 40 pt title, one sentence. Use only in decks over 20 slides, at most one per act.

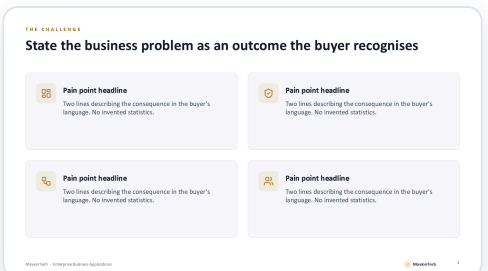

16 reusable layouts (MavionTech_Reusable_Layouts.pptx)

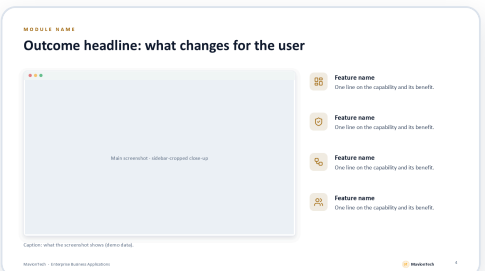

L01 · Cover

L02 · Section divider

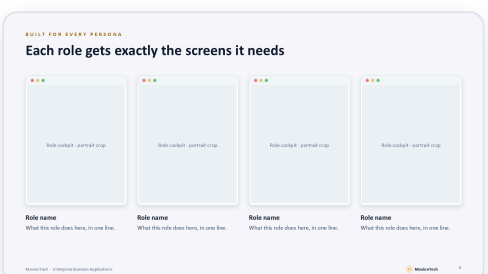

L03 · Problem cards

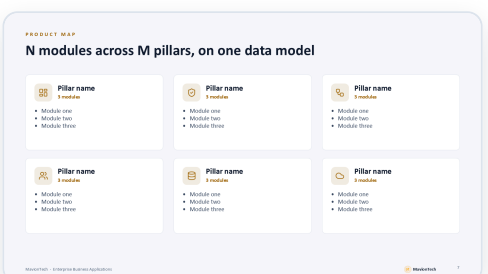

L04 · Hero + feature column

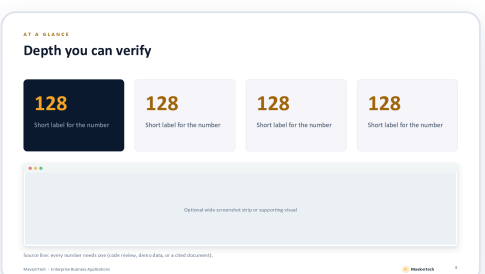

L05 · Main + two stacked

L06 · Persona columns

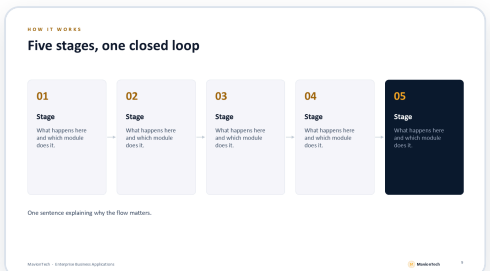

L07 · Module map

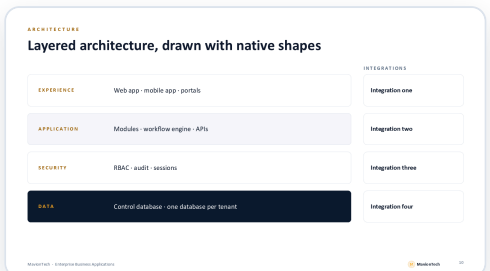

L08 · Stat tiles

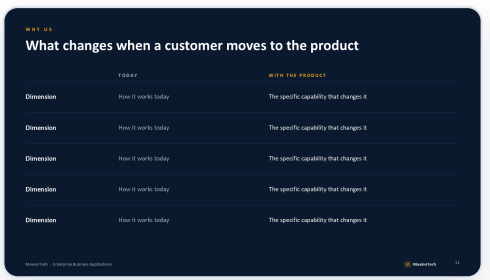

Layouts 9–16

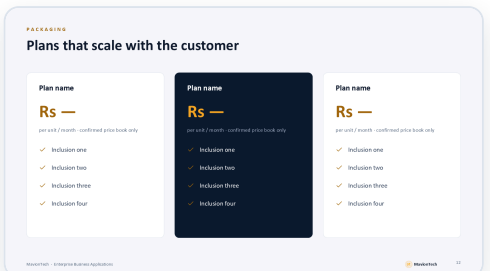

L09 · Process

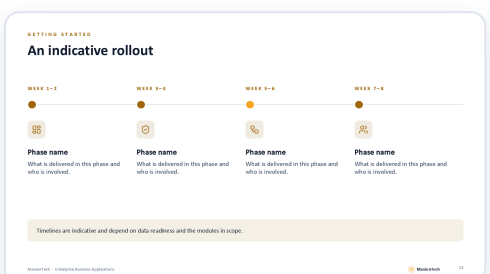

L10 · Architecture layers

L11 · Comparison (dark)

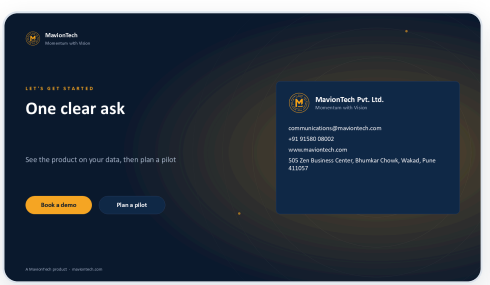

L12 · Pricing

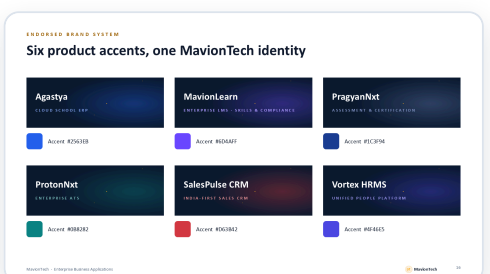

L13 · Timeline

L14 · Roadmap (dark)

L15 · Close

L16 · Product accents

How a deck is assembled

Rhythm

- Sandwich: dark cover → light content → one dark value or roadmap slide per act → dark close.
- No two neighbouring slides use the same layout; mirror hero layouts left/right.
- Every content slide has a visual: screenshot, diagram, icon cards or stat tiles. No text-only slides.
- One message per slide; at most 4 features, 6 cards, 5 process stages.

Text discipline

- Titles fit on one line at 30 pt (≈ 60 characters).
- Body ≥ 12.5 pt; no text below 9 pt except legal.
- Speaker notes (talk track) on every slide.

Slide masters

LAYOUT	USE
MT_COVER	Cover and close
MT_DIVIDER	Section dividers
MT_CONTENT	Default white content
MT_CONTENT_TINT	Paper background for card grids
MT_DARK	Value, comparison, roadmap

Each layout carries editable kicker and title placeholders, the footer, logo and slide number.

Applying the system to each product deck

PRODUCT	ACCENT	COVER GLOW	HERO SCREENS	SLIDES	VISUAL GAPS BEFORE DESIGN
Agastya	#2563EB	Cobalt	a01, s01, r01	32	Recapture ~15 weak/empty shots; fix a18
MavionLearn	#6D4AFF	Violet	Admin dashboard, skill matrix	21	All screens at full resolution; logo
PragyanNxt	#1C3F94	Sapphire (lifted)	Dashboard, proctoring, certificate	22	Populated proctoring, reports, certificate, verify page
ProtonNxt	#0B8282	Teal	Admin dashboard, pipeline	27	Redact slides 8/36; capture vendor, calendar, mobile
SalesPulse CRM	#D63B42 (proposed)	Coral	My Day, masked dialer	25	Full-resolution screens; email, WhatsApp, Android
Vortex HRMS	#4F46E5	Indigo	Employee dashboard, attendance	23	Complete capture incl. VortexGo and SnapLens

The corporate catalogue uses the same tokens with Amber Deep as its accent on light pages and Amber on dark.

Built as code, checked before it ships

Build

- Decks are generated with pptxgenjs from shared tokens (`mt.js`), so a colour or font change applies everywhere.
- Screenshots are cropped by script (top-anchored, sidebar crop for close-ups).
- Icons render from Lucide to 256 px PNG in each accent.

QA checklist

- Schema validation passes; no folder entries in the zip.
- Opens in PowerPoint without a repair prompt (verified by COM automation).
- Rendered and inspected slide by slide: overflow, overlaps, one-line titles, contrast, alignment.
- Every number has a source; demo data labelled; no unverified claims.
