PROMPT 5 · PORTFOLIO-WIDE PRESENTATION QUALITY AUDIT

Portfolio Consistency Report

Six product decks, 152 slides, checked against one corporate standard in Microsoft PowerPoint.

EXECUTIVE SUMMARY

All six decks are ready for external enterprise circulation

152
slides rendered and inspected in PowerPoint

22
corrections applied across the portfolio

0
text overflows, empty placeholders or off-slide shapes

0
unverified uptime, certification, ROI or customer claims

What we found

- The six decks already shared one system: layouts, Calibri type, Midnight + Amber, footer, contact card and close.
- Drift was in the details: section names for the same slide type, closing buttons, demo-data labels, the ₹ symbol, one missing cover mark and one missing architecture diagram.
- PowerPoint measurement found 3 text overflows (SalesPulse, Vortex). Three decks had soft screenshots from 800 px sources.
- No contradictions between decks on company facts, contact details, claims policy or shared products.

What we did

- Fixed every finding at the generator level, rebuilt all six decks and re-exported all six PDFs from PowerPoint.
- Re-measured in PowerPoint: zero overflow; minimum type 9 pt; every screenshot now at least 149 effective DPI.
- Softened two absolute or comparative lines that could not be evidenced.
- Recorded intended product differences (trial length, deployment, pricing visibility) so the catalogue can carry them consistently.

Verdict Approved for screen and PDF circulation. Print use waits on new screenshots and vector logos (page 11).

SCOPE AND METHOD

Every slide checked three ways: by script, by measurement and by eye

1 · Content scan

Every text run in all six decks (python-pptx): fonts and sizes, banned and legacy names, claims patterns (uptime, SLA, ISO, SOC 2, GDPR, 24×7, ROI, “trusted by”, awards), US spellings, currency notation, demo-data labels, isolation wording, trial lengths, title length and speaker notes.

2 · PowerPoint measurement

Each deck opened in Microsoft PowerPoint through automation. For every shape: rendered text height against its box (overflow), position against the slide edge, and empty layout placeholders. Effective resolution of every screenshot: pixels against displayed inches.

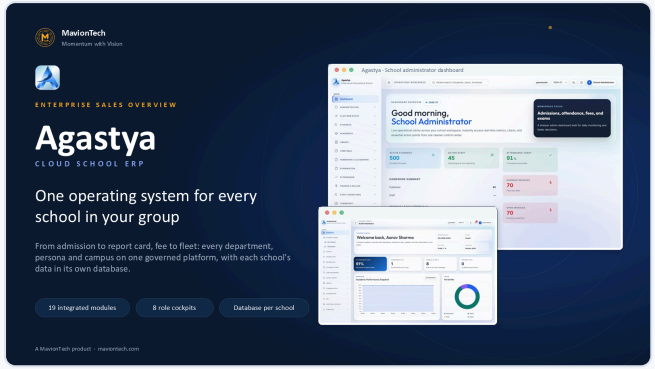

3 · Visual review

All 152 slides exported from PowerPoint as images and reviewed for clipping, alignment, hierarchy, readability, repetition, screenshot treatment and diagram integrity. Changed slides were re-checked after each rebuild.

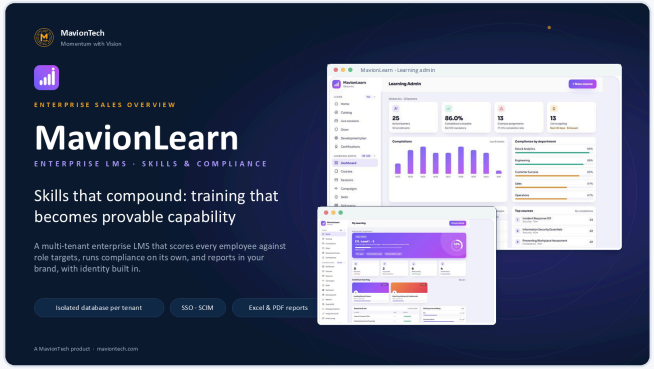

On every build: Office schema validator (all passed) · no negative shape extents · no empty placeholders · speaker notes on every slide · editable text, shapes and diagrams (no slide flattened into an image). LibreOffice was not used for any check (decision D5).

PRODUCT	SLIDES	FILE SIZE	ACCENT	FINAL FILES
Agastya	32	9.0 MB	#2563EB	Agastya_Final.pptx · .pdf · Change_Log.docx
MavionLearn	23	3.6 MB	#6D4AFF	MavionLearn_Final.pptx · .pdf · Change_Log.docx
PragyanNxt	22	3.2 MB	#1C3F94	PragyanNxt_Final.pptx · .pdf · Change_Log.docx
ProtonNxt	27	4.5 MB	#0B8282	Protonnxt_Final.pptx · .pdf · Change_Log.docx
SalesPulse CRM	25	3.4 MB	#D63B42	SalesPulse_CRM_Final.pptx · .pdf · Change_Log.docx
Vortex HRMS	23	2.5 MB	#4F46E5	Vortex_Final.pptx · .pdf · Change_Log.docx

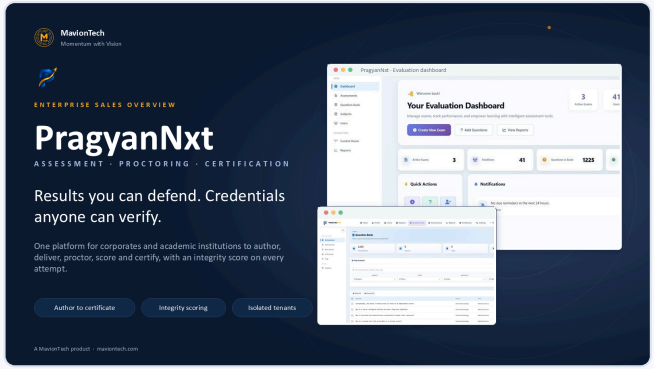

One cover system, six product accents

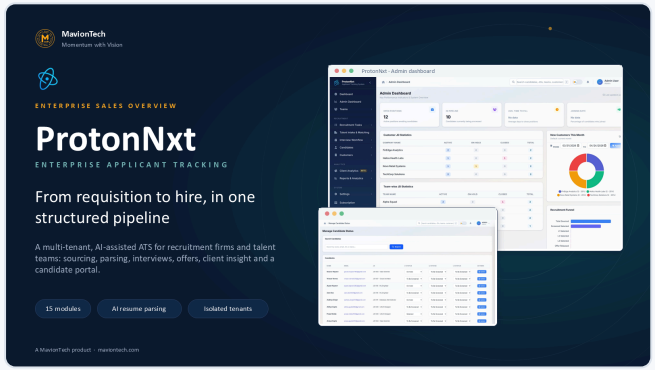

Agastya · cover

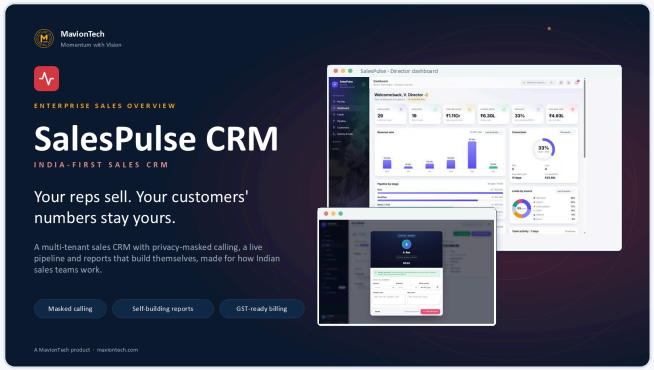

MavionLearn · cover

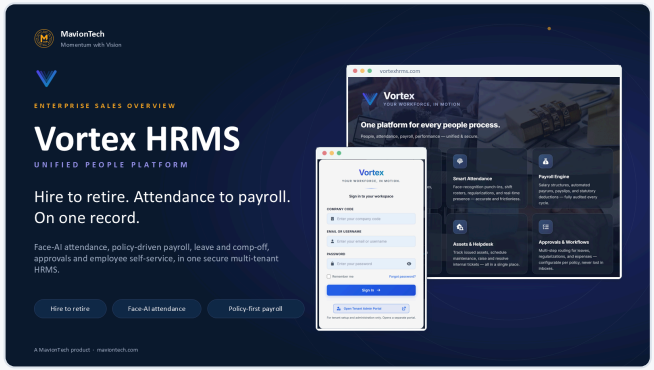

PragyanNxt · cover

ProtonNxt · cover

SalesPulse CRM · cover

Vortex HRMS · cover

Same lockup, kicker, product mark, name, category line, promise, three proof pills and two framed product screens. Agastya now carries its product mark like the other five.

Visual standard by deck

DIMENSION	STANDARD	AGASTYA	MAVIONLEARN	PRAGYANNXT	PROTONNXT	SALESPULSE	VORTEX
Branding	MavionTech lockup on cover and close; logo + product name in every footer	✓	✓	✓	✓	✓	✓
Product mark on cover	0.52 in mark above the kicker	**Fixed** added	✓	✓	✓	✓	✓
Typography	Calibri only; title 28 pt; minimum 9 pt	**Fixed** 9 pt	**Fixed** 9 pt	**Fixed** 9 pt	**Fixed** 9 pt	**Fixed** 9 pt	**Fixed** 9 pt
Colour	Midnight + Amber core; one product accent	✓	✓	✓	✓	✓	✓
Layouts	MT_COVER · CONTENT · TINT · DARK · CLOSE, placeholders filled	✓	✓	✓	✓	✓	✓
Spacing & grid	0.6 in margin, title at 0.78 in, footer at 7.02 in	✓	✓	✓	✓	✓	✓

Product map slide	Kicker “Product map”	✓	**Fixed** kicker	**Fixed** kicker	✓	✓	✓
Footer & numbering	Product · category left; logo; number right	✓	✓	✓	✓	✓	✓
Close	Book a demo + second action; identical contact card	✓	**Fixed** button	**Fixed** button	✓	**Fixed** button	✓

✓ conforms as built. “Fixed” items were corrected in this audit. [1] Vortex has no product screenshots in its source; the cover uses the public vortexhrms.com sign-in page and all other slides use native diagrams.

Naming and terminology

AREA	PORTFOLIO RULE AND FINDING	RESULT
Product names	Agastya · MavionLearn · PragyanNxt · ProtonNxt · SalesPulse CRM · Vortex HRMS. No “Evalynx”, “Protonnxt” or “Maviontech” in text (all-caps kickers are styling).	✓
Company	MavionTech Pvt. Ltd.; communications@maviontech.com; +91 91580 08002; 505 Zen Business Center, Pune. Identical on all six closes.	✓
Spelling	British English in prose (organisation, centre, catalogue). Agastya “command center” → “command centre”. UI labels keep their on-screen spelling: Catalog, Customize, and SalesPulse’s module name Command Center.	**Fixed** 1 deck
Currency	₹ with Indian digit grouping. MavionLearn “Rs 1,800” → “₹1,800”.	**Fixed** 1 deck
Demo data	Every caption over a screenshot ends “(demo data)”. Five variants (demo tenant/tenants/users/clients/organisation) unified.	**Fixed** 4 decks
Calls to action	Primary: “Book a demo”. Second: “Start a free trial” where a trial is offered (MavionLearn, PragyanNxt, SalesPulse), “Plan a pilot” elsewhere (Agastya, ProtonNxt, Vortex). Three wording variants unified.	**Fixed** 3 decks
Section names	Same slide type, same kicker: “Product map”, “Architecture”. Five variants unified.	**Fixed** 4 decks
Isolation wording	One dedicated database per tenant in every product, named in the buyer’s noun: school (Agastya), customer/tenant (MavionLearn), organisation (PragyanNxt), tenant (ProtonNxt), company (SalesPulse), customer (Vortex). Intentional.	✓
Status labels	Planned items are labelled “Planned” (Agastya roadmap) or placed under Next/Later (Vortex). ProtonNxt client engagement analytics is labelled Beta.	✓

CONTENT CONSISTENCY

What each deck says, side by side

	AGASTYA	MAVIONLEARN	PRAGYANNXT	PROTONNXT	SALESPULSE CRM	VORTEX HRMS
Positioning	Cloud school ERP for school groups	Enterprise LMS, skills & compliance	Assessment, proctoring & certification	AI-assisted ATS for recruiters	India-first sales CRM	Unified people platform (HRMS)
Target customer	School groups, multi-campus	L&D, HR, compliance, IT	Corporates hiring; academic institutions	Recruitment firms, talent teams	Indian sales teams	HR, payroll & finance teams
Modules	19 modules · 8 roles	12 modules · 5 capabilities	8 modules	15 modules	14 modules	Base bundle + premium + add-ons
Isolation	Database per school	Database per tenant	Database per organisation	Database per tenant	Database per company	Database per customer
Deployment	Multi-tenant SaaS[2]	SaaS · private cloud · on-prem	SaaS · private cloud · on-prem	Multi-tenant SaaS	Multi-tenant SaaS + Android	Multi-tenant cloud + mobile apps
Key integrations	Razorpay, Meta WhatsApp, Twilio, SMTP	OIDC, SAML 2.0, SCIM, SCORM, LTI 1.3	LTI 1.3, Open Badges, verifiable credentials	OpenAI, Gemini, MavionMeet, Razorpay, ICS	Razorpay, WhatsApp Business, telephony	REST APIs, biometric devices, access gates
Pricing shown	No (open input)	Model only, tiers pending	Allowances; prices pending	No (open input)	Calling rate; seat price pending	Full list prices
Trial	Pilot	30 days	14 days	Pilot	30 days	30-day pilot · 30-day trial[3]
Maturity / roadmap	Roadmap labelled Planned	Live features only	Live features only	One Beta module labelled	Live features only	Live / Next / Later
Claims	Codebase metrics, sourced	None unverified	None unverified	None unverified	None unverified	None unverified

[2] Agastya on-premise is mentioned in the source notes only and is not claimed on slides until MavionTech confirms it. [3] The Vortex close offers a 30-day pilot; the pricing slide states a 30-day free trial with no credit card. Both come from the Vortex source and do not conflict.

CONTRADICTIONS

Conflicts found between decks, and how each was settled

FINDING	WHERE	OUTCOME
Same slide type named differently across decks	“Platform”, “Everything in one platform”, “Enterprise-grade”, “Architecture & security”, “Security & architecture”	Resolved: “Product map” and “Architecture” everywhere
Trial offered, but the close said “Plan a pilot” or used three wordings	MavionLearn, PragyanNxt, SalesPulse	Resolved: “Start a free trial” on trial products
Vortex was the only deck without an architecture diagram	Vortex slide 18 had technology cards only	Resolved: layered diagram from the Vortex source (slide 15), without the unverified encryption and multi-region lines
Agastya was the only cover without a product mark	Agastya slide 1	Resolved: mark added from the Agastya app icon
Rupee written two ways	MavionLearn slide 14 “Rs 1,800”	Resolved: ₹1,800
Absolute or comparative wording that cannot be evidenced	Vortex “Zero lost laptops at exit”; ProtonNxt “A candidate experience competitors can’t match”	Resolved: “Assets recovered at exit”; “One candidate login across every employer”
Vortex roadmap lists recruitment / applicant tracking (Next)	Overlaps ProtonNxt, a live ATS	Open: positioning decision for MavionTech (page 11). Not changed on slides.
Vortex Learning (LMS) and HR documents	Overlap MavionLearn and Signet	Consistent: Vortex slide 16 already directs enterprise needs to MavionLearn and Signet

No conflicts were found in company facts, contact details, product names, the claims policy, or in how shared capabilities (multi-tenancy, RBAC, audit logging, Razorpay, WhatsApp) are described.

VISUAL QA · MEASURED IN POWERPOINT

Rendering, overflow and resolution, before and after

Text fit and structure

CHECK	BEFORE	AFTER
Text overflowing its box	3	**0**
· SalesPulse 21 caption	1 line over	Shortened
· Vortex 11 card bodies	2 lines over	Shortened
Empty layout placeholders	0	**0**
Shapes off the slide	0	**0**
Negative shape extents	0	**0**
Smallest type size	8 pt (frame URL)	**9 pt**
Fonts other than Calibri	0	**0**
Slides without speaker notes	0	**0**
Schema validation	Pass	**Pass**

Screenshot resolution (effective DPI)

DECK	MIN BEFORE	MIN AFTER	MEDIAN AFTER
Agastya	241	241	396
MavionLearn	107	**214**	266
PragyanNxt	89	**178**	214
ProtonNxt	149	149	241
SalesPulse CRM	107	**214**	221
Vortex HRMS	320	320	568

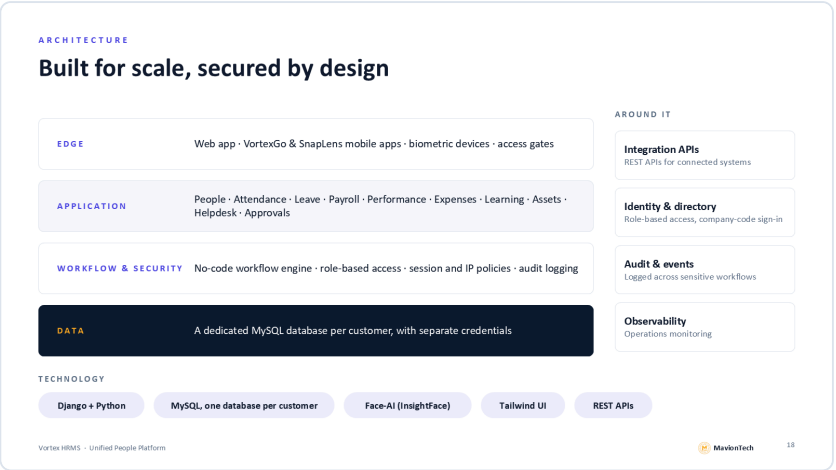

Sources under 1,200 px are now upscaled 2× with Lanczos resampling and light sharpening. This makes them sharp on projectors and in PDF. It cannot add detail the capture never had, so new captures are still needed for print (page 11).

CORRECTIONS APPLIED

22 corrections, made in the generators so they hold on every rebuild

DECK	CORRECTIONS
All six	Frame URL label 8 → 9 pt; sharper rendering of low-resolution screenshots
Agastya	Product mark on cover; “Command centre” kicker and title
MavionLearn	“Product map” kicker; ₹1,800; “Start a free trial”; demo label
PragyanNxt	“Product map” and “Architecture” kickers; “Start a free trial”; demo labels (3)
ProtonNxt	“Architecture” kicker; demo labels (6); candidate-portal title
SalesPulse CRM	“Architecture” kicker; caption overflow; “Start a free trial”; demo label
Vortex HRMS	New architecture slide 18; two card overflows on slide 11; “Assets recovered at exit”

All six PPTX files were rebuilt and copied into Final_Product_Decks, and all six PDFs re-exported from PowerPoint. Slide counts are unchanged.

New Vortex slide 18, as rendered in PowerPoint: edge, application, workflow & security and data layers, the services around them, and the technology stack. Every element comes from the Vortex source deck.

OPEN ITEMS

Nothing blocks digital circulation. These inputs lift the portfolio further.

ITEM	AFFECTS	WHY IT MATTERS	NEEDED FROM
New screenshot captures at 1,600 px or more	PragyanNxt, ProtonNxt, MavionLearn, SalesPulse; Vortex (none exist)	Sharp print and catalogue reproduction; Vortex product proof	Product teams / app access
Vector logos	MavionTech, Agastya, MavionLearn, ProtonNxt, SalesPulse	Print catalogue; the current marks are PNG	Brand owner
External price lists	Agastya, ProtonNxt, SalesPulse seats, MavionLearn tiers, PragyanNxt tiers	Pricing pages currently describe the model only	Commercial
Agastya on-premise	Agastya deployment	In source notes only, not claimed	Product owner
Vortex ATS roadmap vs ProtonNxt	Vortex slide 22, ProtonNxt	Two answers to one buyer question	Leadership: positioning decision
SLA, uptime, support hours, certifications	All decks and both websites	Removed until evidenced; websites still show them	Leadership / compliance
SalesPulse CRM in the official catalogue	Catalogue scope	Not listed on maviontech.com	Leadership

READINESS

Verdict: suitable for external enterprise circulation

DECK	STATUS	NOTE
Agastya	Ready	Strongest proof: 51 real screens at 241+ DPI. Price list needed before quoting.
MavionLearn	Ready	Ready. Tier matrix pending; pricing slide states the model only.
PragyanNxt	Ready	Ready. Recapture preferred before print (lowest source resolution).
ProtonNxt	Ready	Ready. Price list pending; screens at 149+ DPI.
SalesPulse CRM	Ready	Ready. Seat prices pending; catalogue inclusion to confirm.
Vortex HRMS	Ready	Ready. Diagram-led by necessity; product screenshots would strengthen it.

Recommendation. Approve the six decks as the circulation set and proceed to the corporate product catalogue. The catalogue can reuse the content matrix on page 7 as its product-comparison spread. It should carry the same rules: one kicker per slide type, “(demo data)” on screens, ₹ notation, and planned items labelled.
