ENTERPRISE SALES OVERVIEW

MavionLearn

ENTERPRISE LMS · SKILLS & COMPLIANCE

Skills that compound: training that becomes provable capability

A multi-tenant enterprise LMS that scores every employee against role targets, runs compliance on its own, and reports in your brand, with identity built in.

Isolated database per tenant

SSO · SCIM

Excel & PDF reports

THE PROBLEM

Training spend is up, but capability is still a guess

Completions ≠ capability

Finishing a course doesn't prove a skill or show which gaps remain.

Compliance is a fire drill

Mandatory training is chased and tracked by hand, then rebuilt at audit time.

Reporting is slow

Generic exports that take days and are never board-ready.

Learning is fragmented

Video, LMS and live sessions sit in disconnected tools.

Identity is hard

Provisioning, SSO and deprovisioning are set up again for every vendor.

ROI is invisible

Leadership can't see what training spend actually returns.

THE SOLUTION

One system that turns training into capability

Measure capability

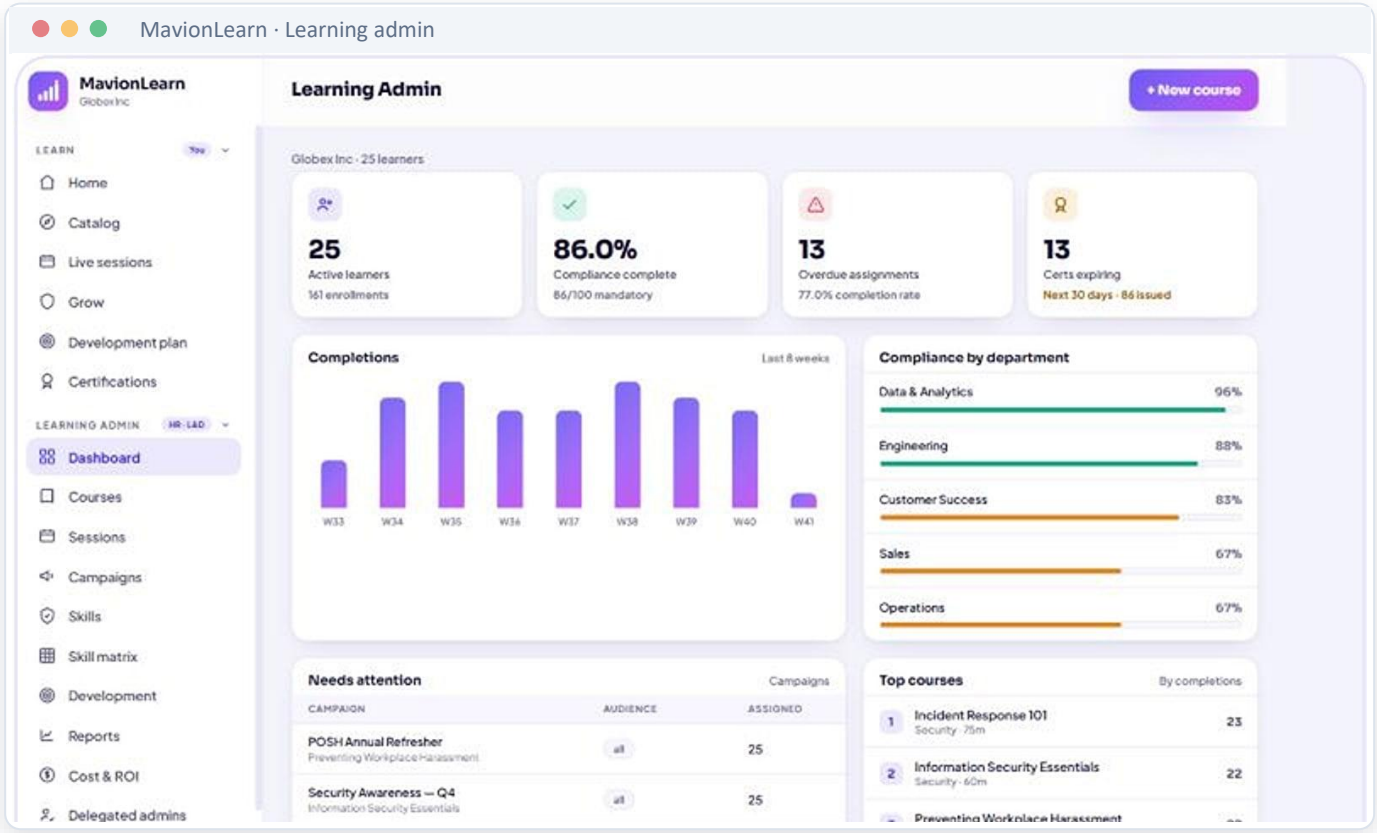

A living skill matrix scores every employee against the levels their role needs, and shows the exact gaps.

Automate compliance

Rule-based campaigns assign, remind, track and certify. Audit-ready by default.

Prove ROI

Cost per completion, training hours and spend: the numbers leadership asks for.

Learning admin: enrolments, compliance %, completions by department and items needing attention (demo data).

WHO IT SERVES

Built for the people who own learning, compliance and identity

L&D and HR admins

Author courses, run campaigns, issue certificates and report.

Delegated admins

Department-scoped administration for large, distributed organisations.

Compliance leads

Mandatory training by audience, with audit-ready evidence.

Managers

See their team's progress, skills and gaps.

Learners

A personal home with skill tracks, recommendations and certificates.

IT and identity teams

SSO, SCIM provisioning and an isolated tenant database.

PRODUCT MAP

Twelve modules across five capabilities, in one platform

Learn

4 modules

- Catalog & courses
- On-demand learning
- Live learning (ILT / VILT)
- Learner experience

Measure

1 module

- Skills & skill matrix, development plans

Comply

1 module

- Compliance campaigns & certifications

Report

2 modules

- Enterprise reporting
- Cost & ROI

Govern

4 modules

- People & delegated admin
- Identity & security
- Standards & integrations
- Platform console

One isolated database per customer. Each tenant's data, brand and controls stay in its own database, white-labelled across the app, exports and certificates.

WHY MAVIONLEARN

Others track completions; MavionLearn proves capability

Capability, not completions

Scored against role targets; each completed course raises real skill levels (slides 9–10).

Compliance that runs itself

Assign, remind, certify and renew automatically (slides 11–12).

Identity built in

OIDC, SAML 2.0 and SCIM included, not a paid add-on (slide 17).

One isolated database per tenant

Zero shared rows; isolation you can verify in the console (slides 19–20).

Reports in your brand

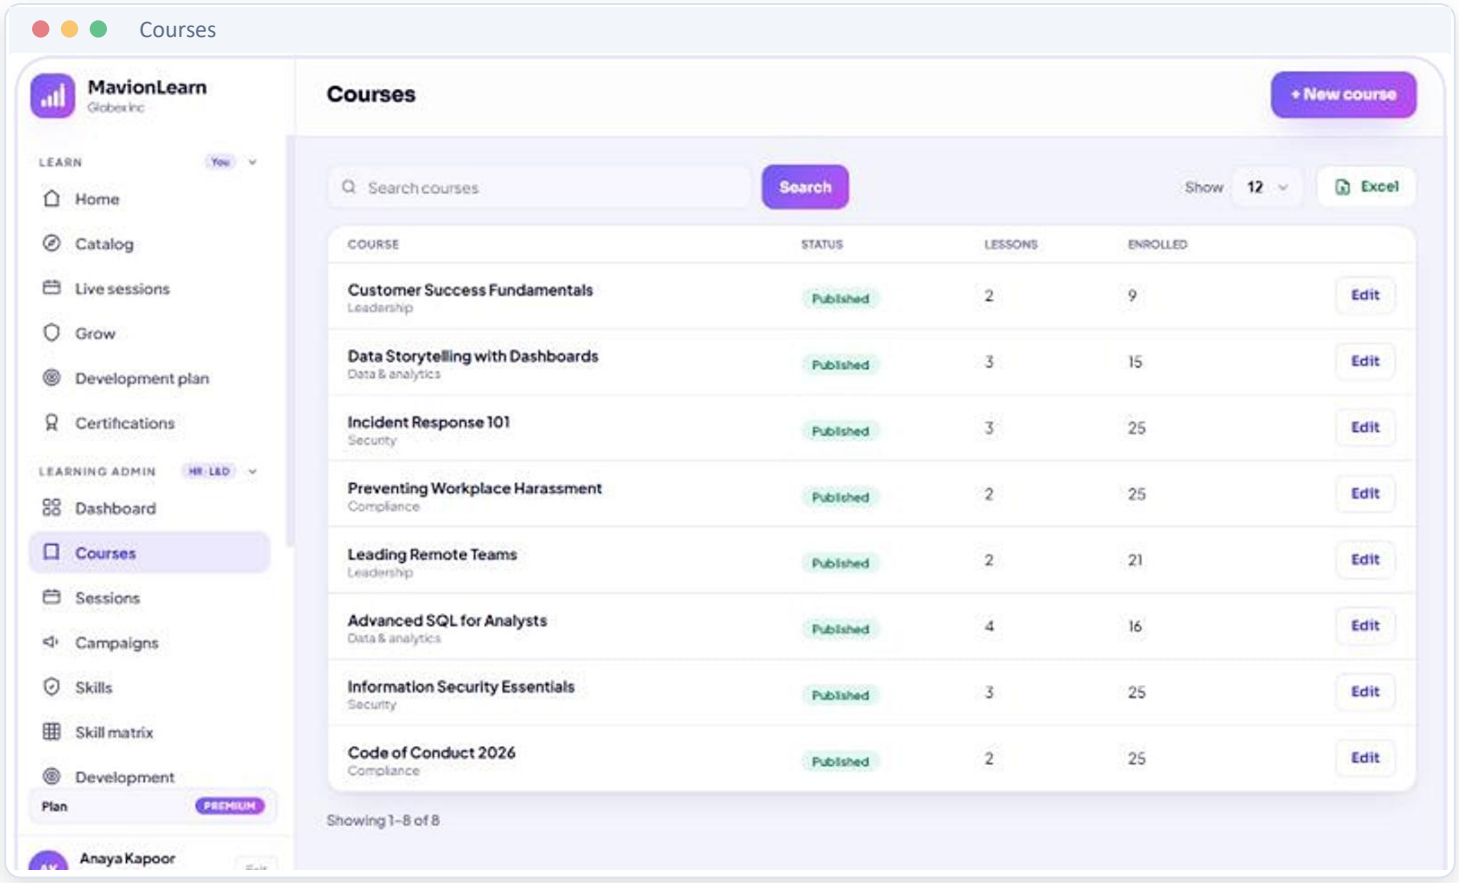

Board-ready Excel and PDF with your name on top (slide 13).

Live and on-demand together

ILT/VILT sessions and self-paced learning in one place (slide 8).

CATALOG & COURSES

Author once, deliver to every audience

Course administration: status, lessons and enrolments per course (demo data).

Structured authoring

Courses, modules and lessons, with drafts and publishing.

Lifecycle control

Deactivate and reactivate courses without losing history.

Standard content

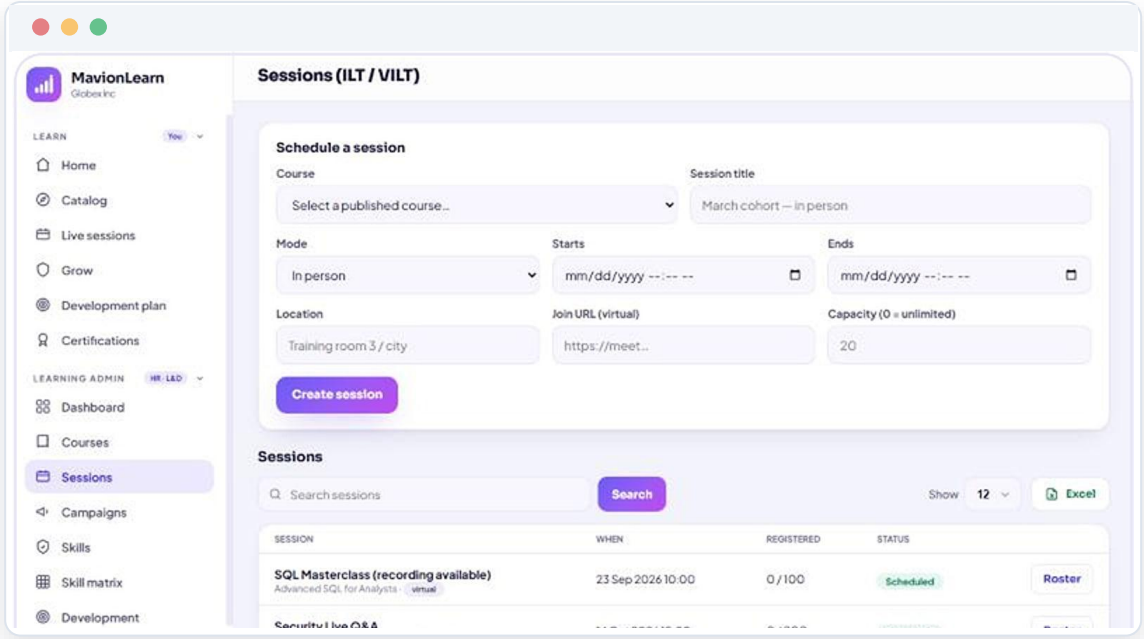

SCORM packages, video, readings and graded quizzes.

Targeted delivery

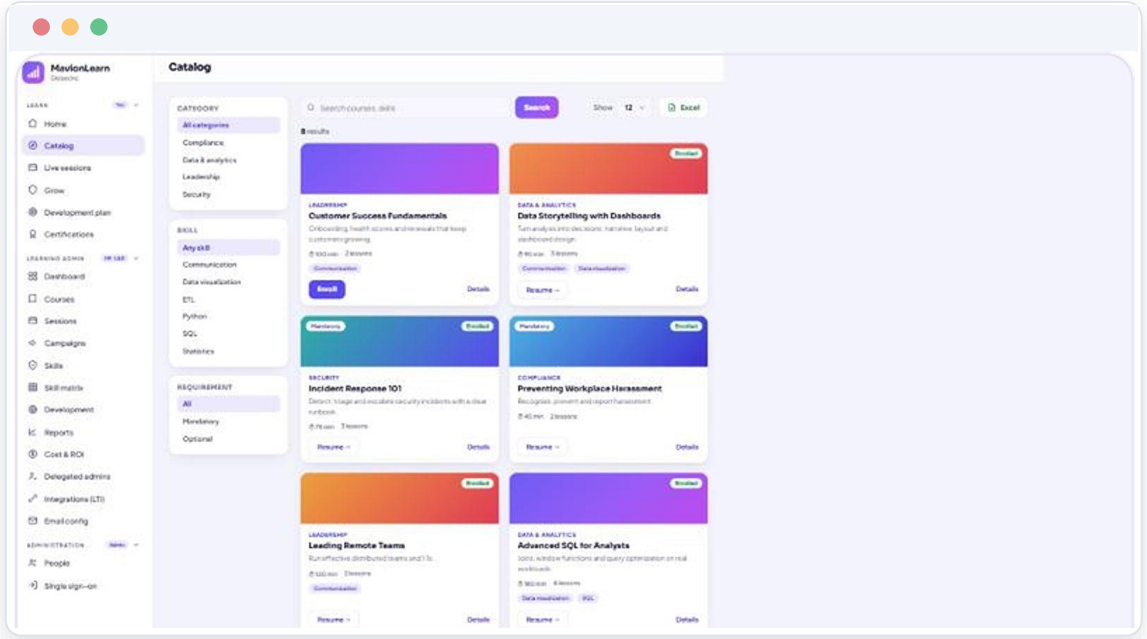

Assign by audience or let learners self-enrol from the catalog.

LIVE & ON-DEMAND

Learn live or on-demand, in one place

ILT and VILT sessions: schedule, roster and status (demo data).

Learner catalog: on-demand courses ready to start.

On-demand

Video, readings, SCORM and graded quizzes.

Live & virtual

ILT and VILT sessions with rosters.

Calendar invites

.ics invites sent to participants.

Never fall behind

Recordings published automatically after a session.

SKILL MATRIX · THE DIFFERENTIATOR

See capability across the whole organisation

Role targets per skill

Define the level each role needs; everyone is scored against it.

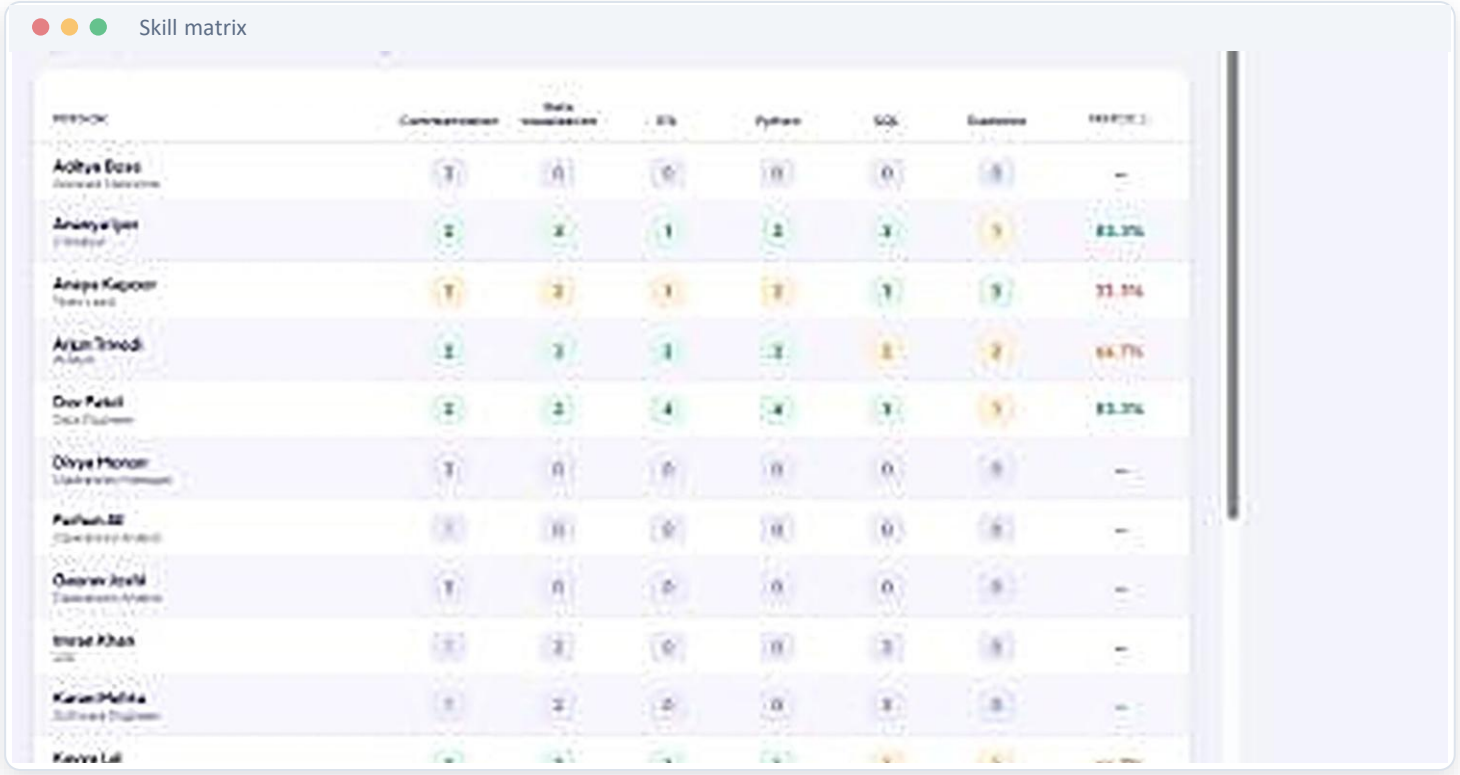

Live match %

Per person, per department and for the whole organisation.

Training that compounds

Completing a course raises the learner's real skill level.

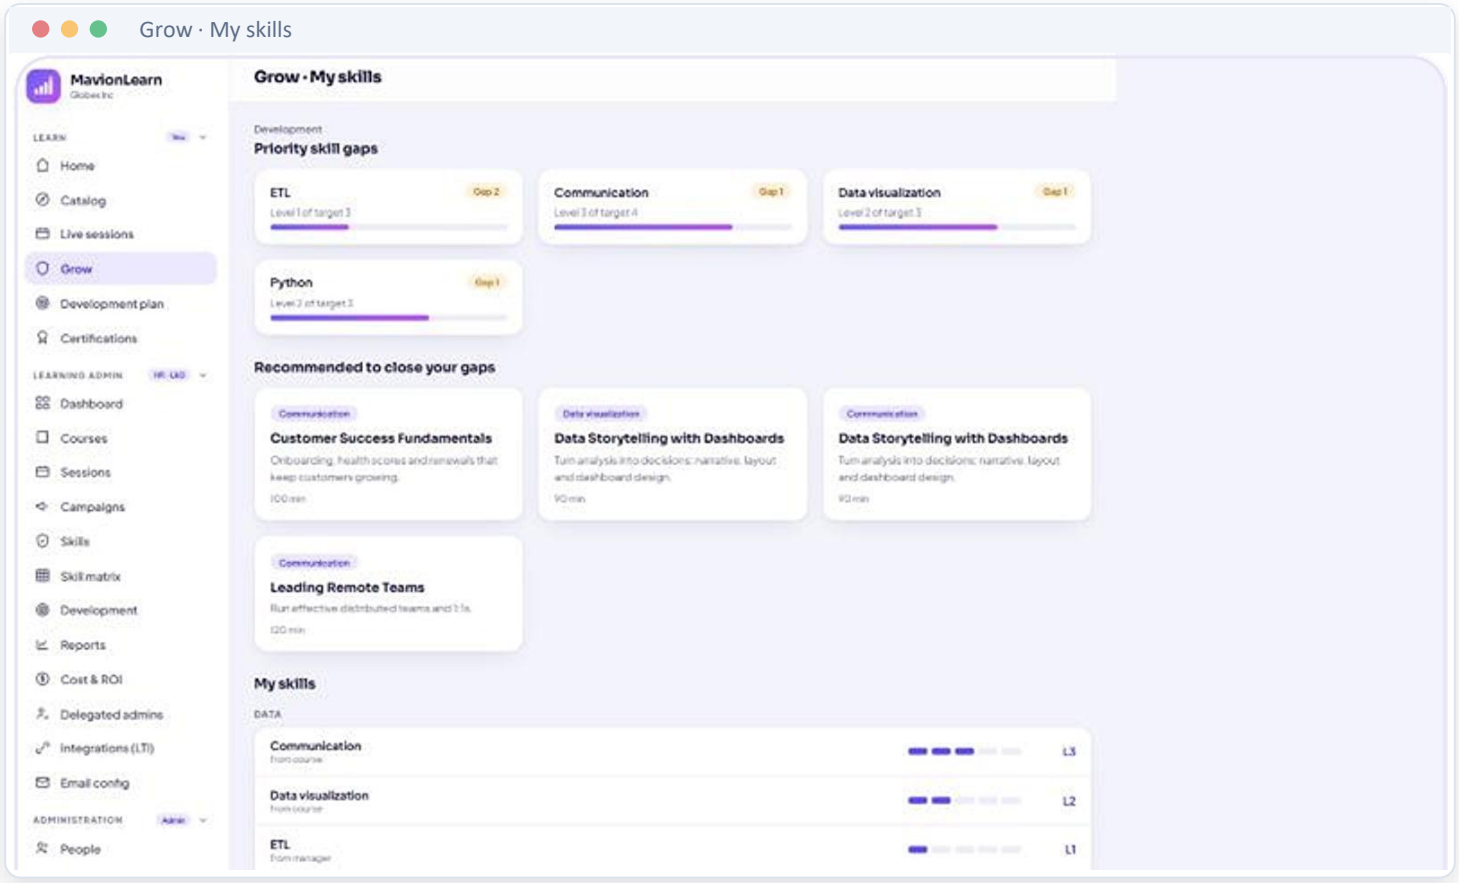

73.6% organisation capability match in the demo tenant (demo data)

Skill matrix: employees scored against role targets (demo data).

GROW & DEVELOPMENT PLANS

Every gap turns into the next best course

Grow view: priority skill gaps, recommended courses and current skill levels (demo data).

Priority skill gaps

Each learner sees the gaps between their level and their role target.

Recommended courses

Courses recommended to close each gap.

Development plans

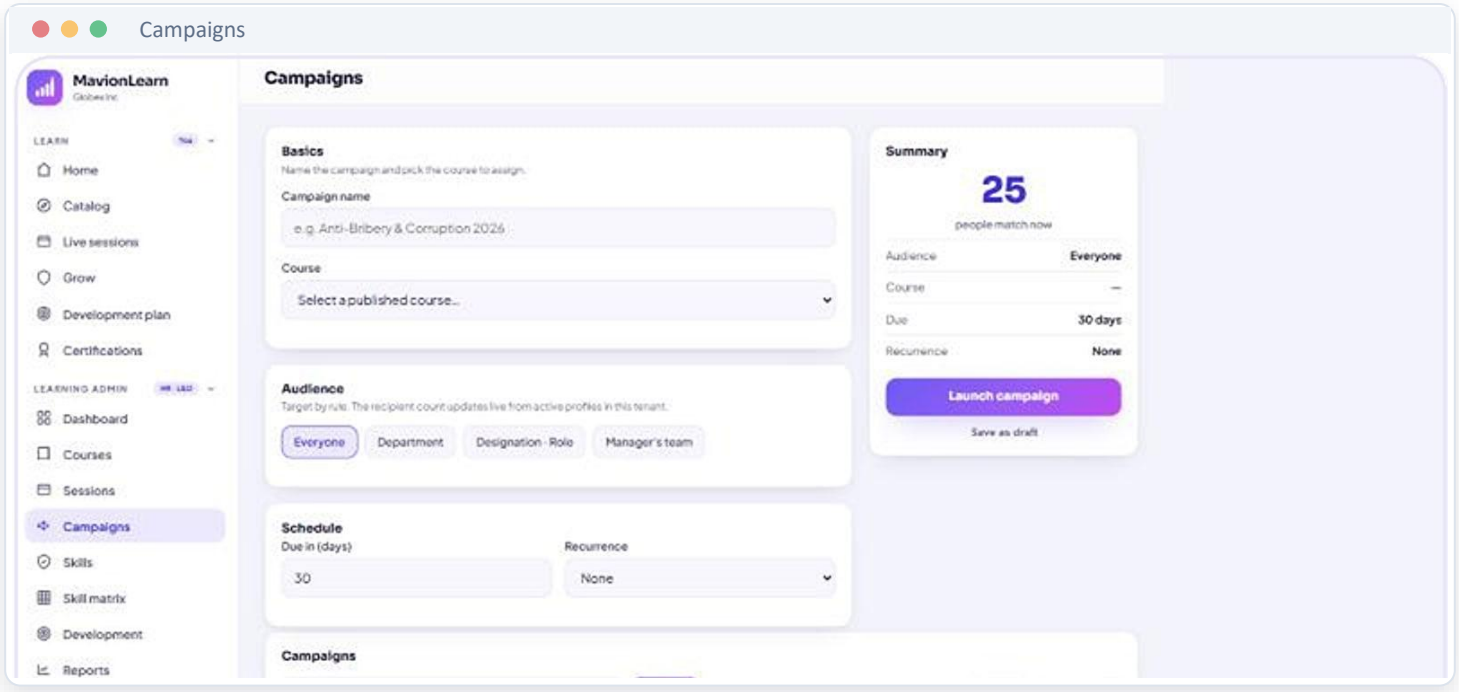

Plans that track progress towards target levels.

My skills

Current level per skill, rising as courses are completed.

COMPLIANCE CAMPAIGNS

Compliance that runs itself

Campaign builder: audience, course, schedule and status (demo data).

Rule-based audiences

Target by department, role, team or the whole organisation.

Recurring by design

Campaigns repeat on schedule, with automatic reminders.

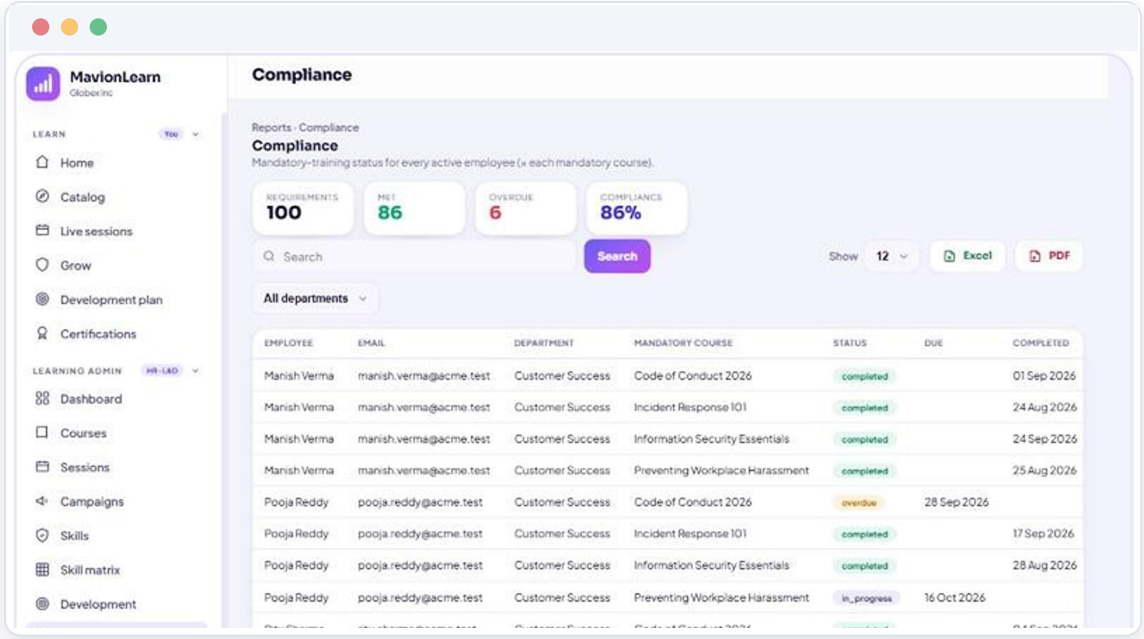

Certificates on completion

Issued automatically, with expiry tracking.

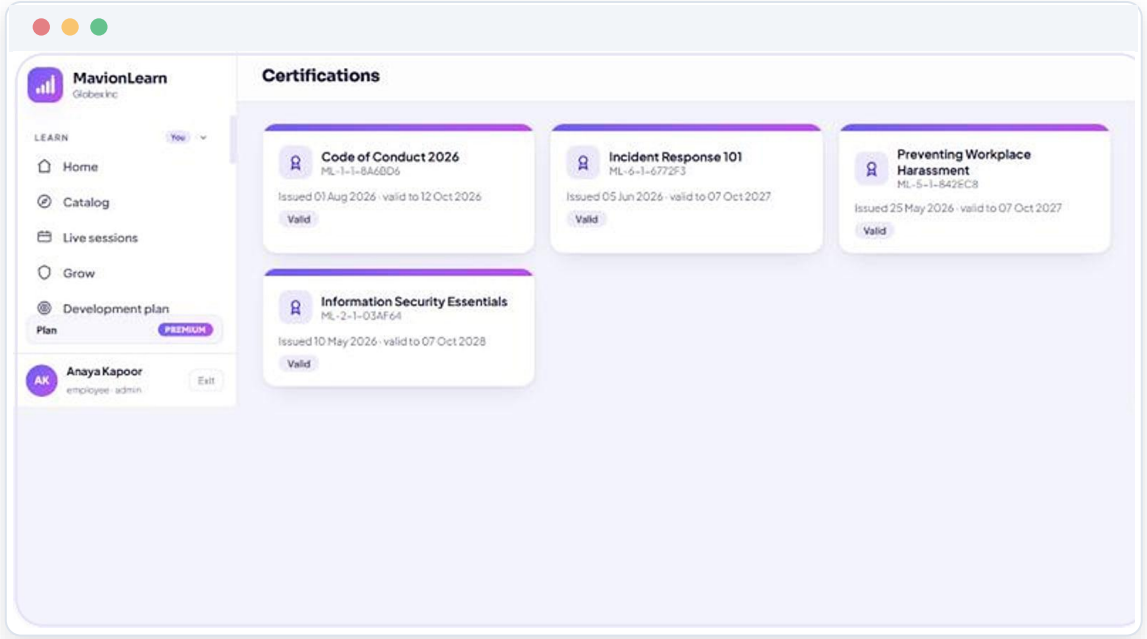

1 Define rule → 2 Assign → 3 Remind → 4 Complete → **5 Certify** → 6 Renew

COMPLIANCE EVIDENCE

Audit-ready evidence in one click

Compliance report: per-employee status, by department, exportable (demo data).

Learner certificates with issue and expiry dates.

By department

Compliance status per department and course.

Overdue flags

Know who is late before the audit.

Excel and PDF

Evidence exported in your brand.

Expiry & renewal

Certificates tracked with renewal reminders.

ENTERPRISE REPORTING

Board-ready reporting in one click

8 built-in reports

Enrolment, compliance, courses, learners, certifications, ROI and more.

Filter and drill down

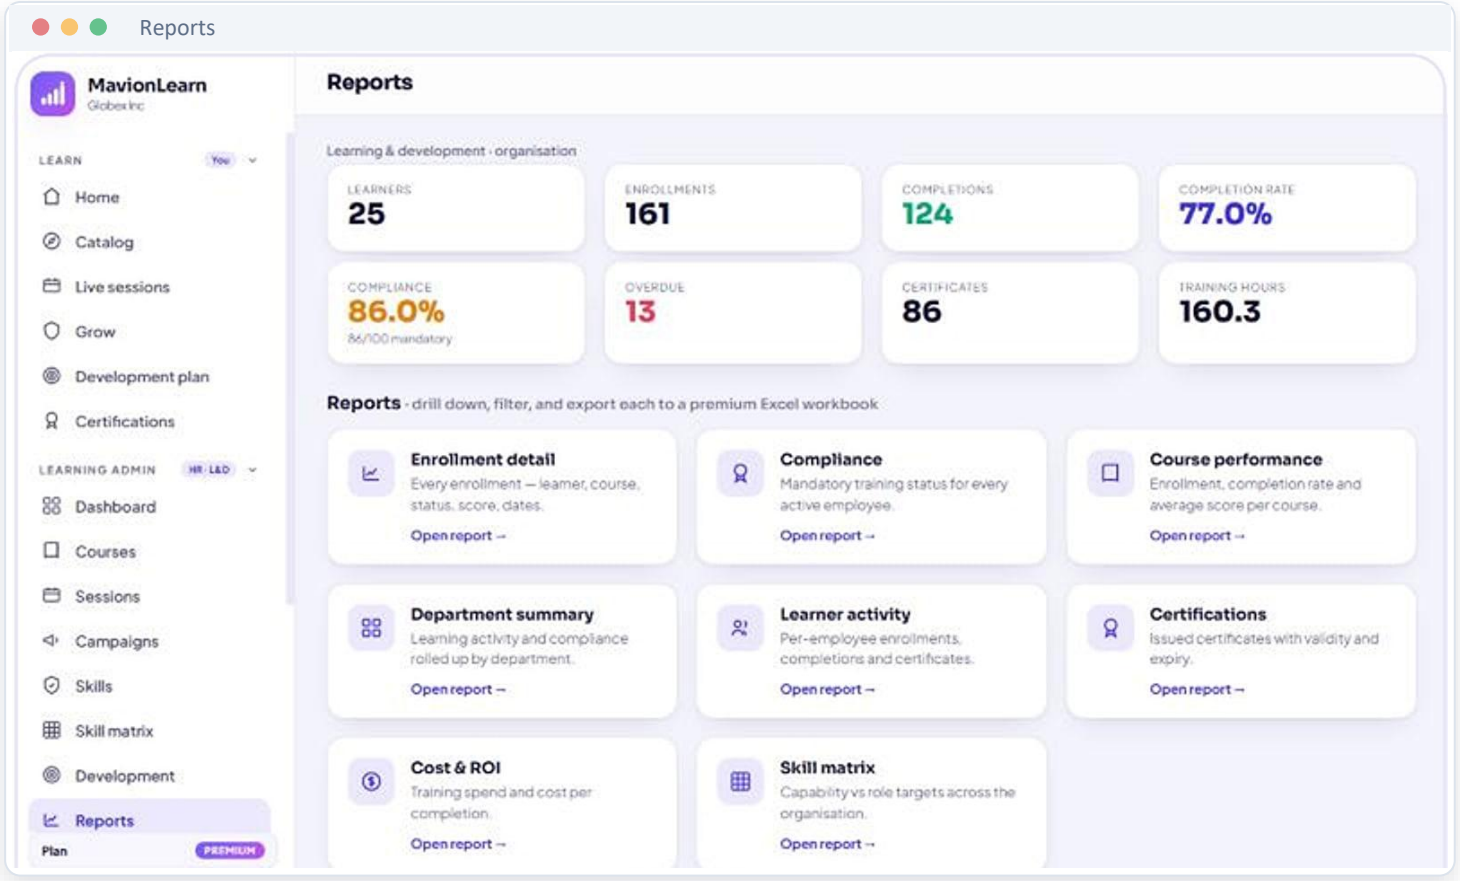

Date ranges, departments and record-level detail.

Premium exports

Light-themed Excel workbooks and boardroom PDFs.

In your brand

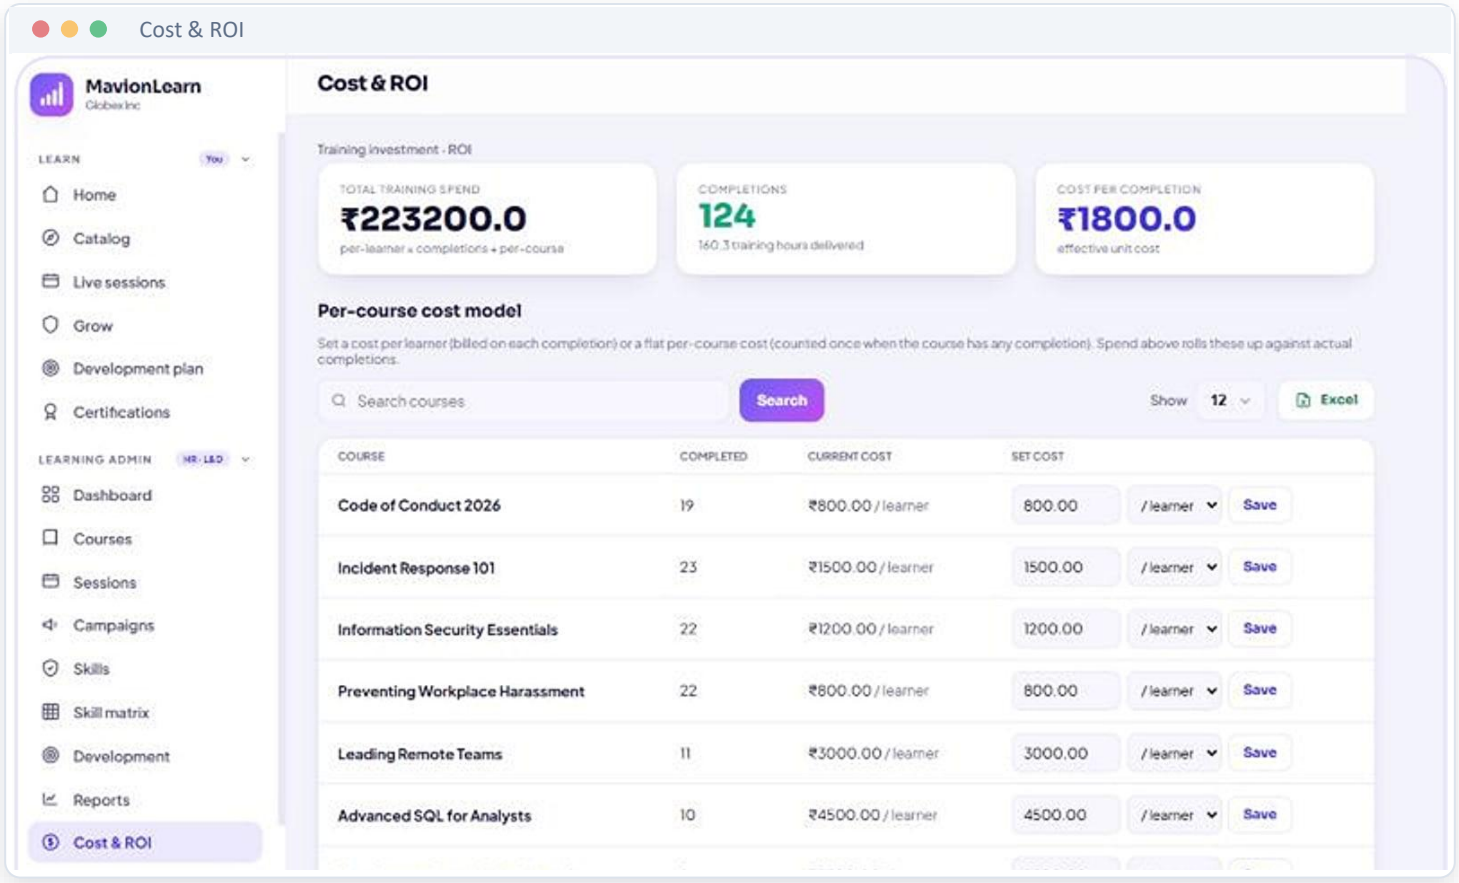

White-labelled with your name on top.

Reports workspace: organisation summary and the eight report types (demo data).

COST & ROI

Prove the return on every training rupee

Cost & ROI: total spend, completions and effective cost per completion of ₹1,800 (demo data).

Per-course cost model

Set a cost per learner; spend rolls up against real completions.

One-screen ROI

Total spend, cost per completion and hours delivered.

Finance-ready

Export the numbers leadership asks for.

LEARNER EXPERIENCE

A learner home that drives real progress

Personalised home

Skill tracks, progress and what to do next.

Continue learning

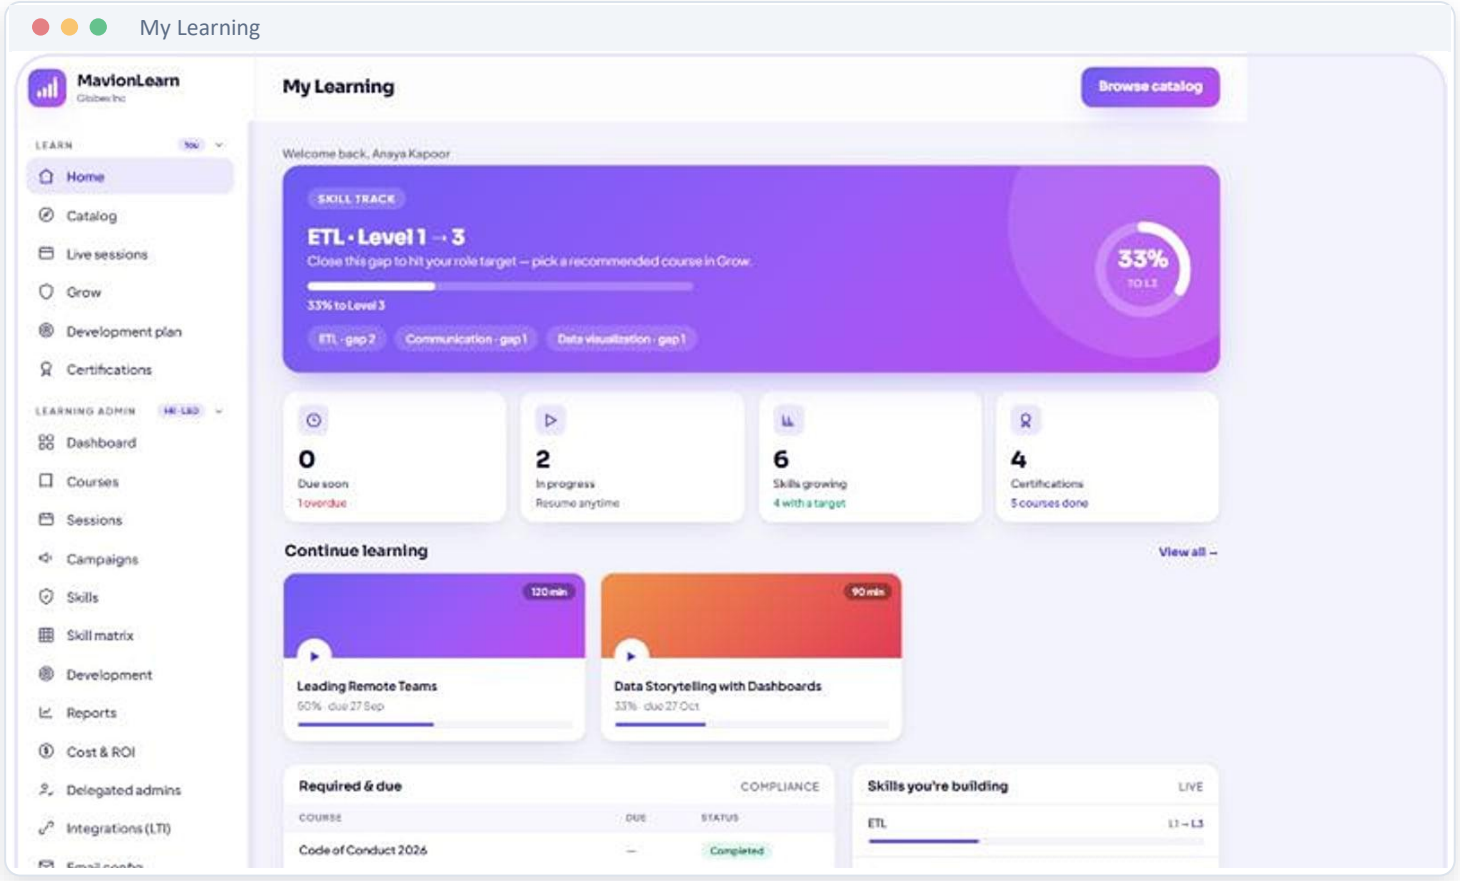

Pick up exactly where you left off.

Recommendations

Courses suggested from role gaps.

Certificates

Issued automatically, with expiry reminders.

My Learning: active skill track, progress, continue learning and required courses (demo data).

PEOPLE & ADMINISTRATION

Run large organisations safely

Bulk onboarding

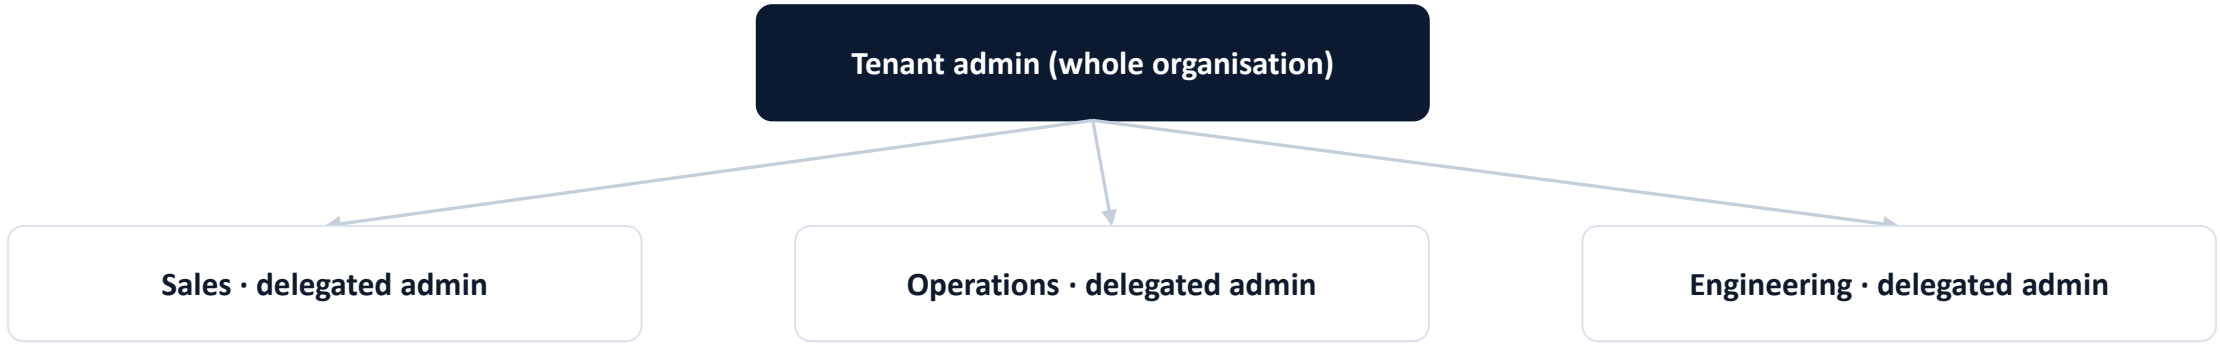

Create employees one by one or import them by CSV, with profile photos.

Delegated administrators

Department-scoped admins manage only their part of the organisation.

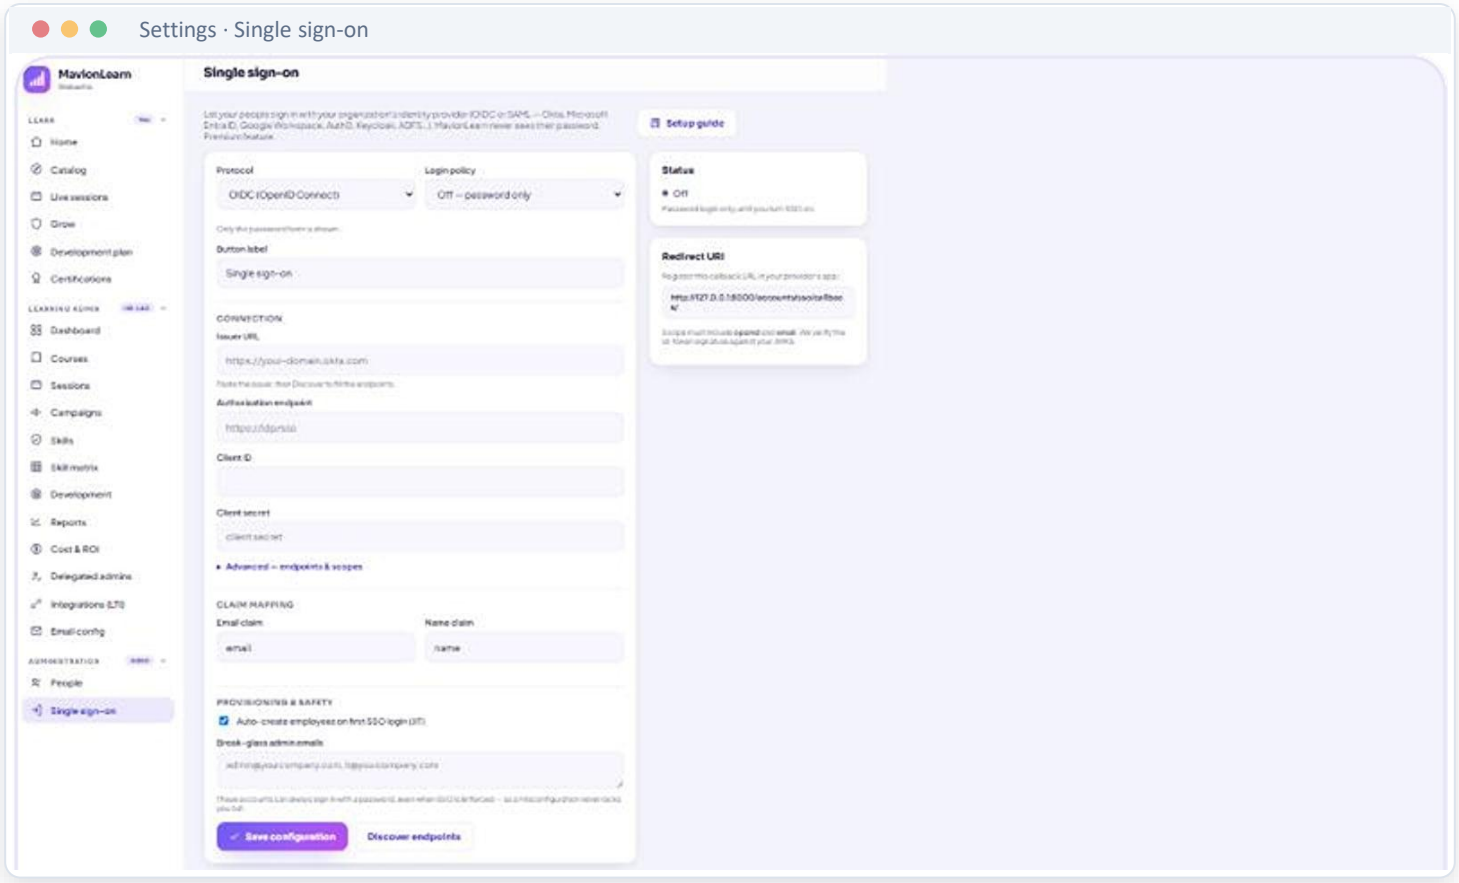

Audiences that follow the org

Departments, roles and teams drive campaigns, reports and skill targets.

IDENTITY & SECURITY

Enterprise identity, built in rather than bolted on

Single sign-on settings for a tenant (demo data).

SSO: OIDC and SAML 2.0

Per-tenant policy: off, optional or enforced, with break-glass access.

SCIM 2.0 and JIT

Automated provisioning and deprovisioning; accounts created just in time.

Secure by design

Signed-URL media, audit logging, rate limiting and an auth gate on every page.

STANDARDS & INTEGRATIONS

Fits the identity and content standards you already use

OIDC
Single sign-on

SAML 2.0
Single sign-on

SCIM 2.0
User provisioning

SCORM
Packaged e-learning content

LTI 1.3
Learning tool interoperability

API
Versioned API

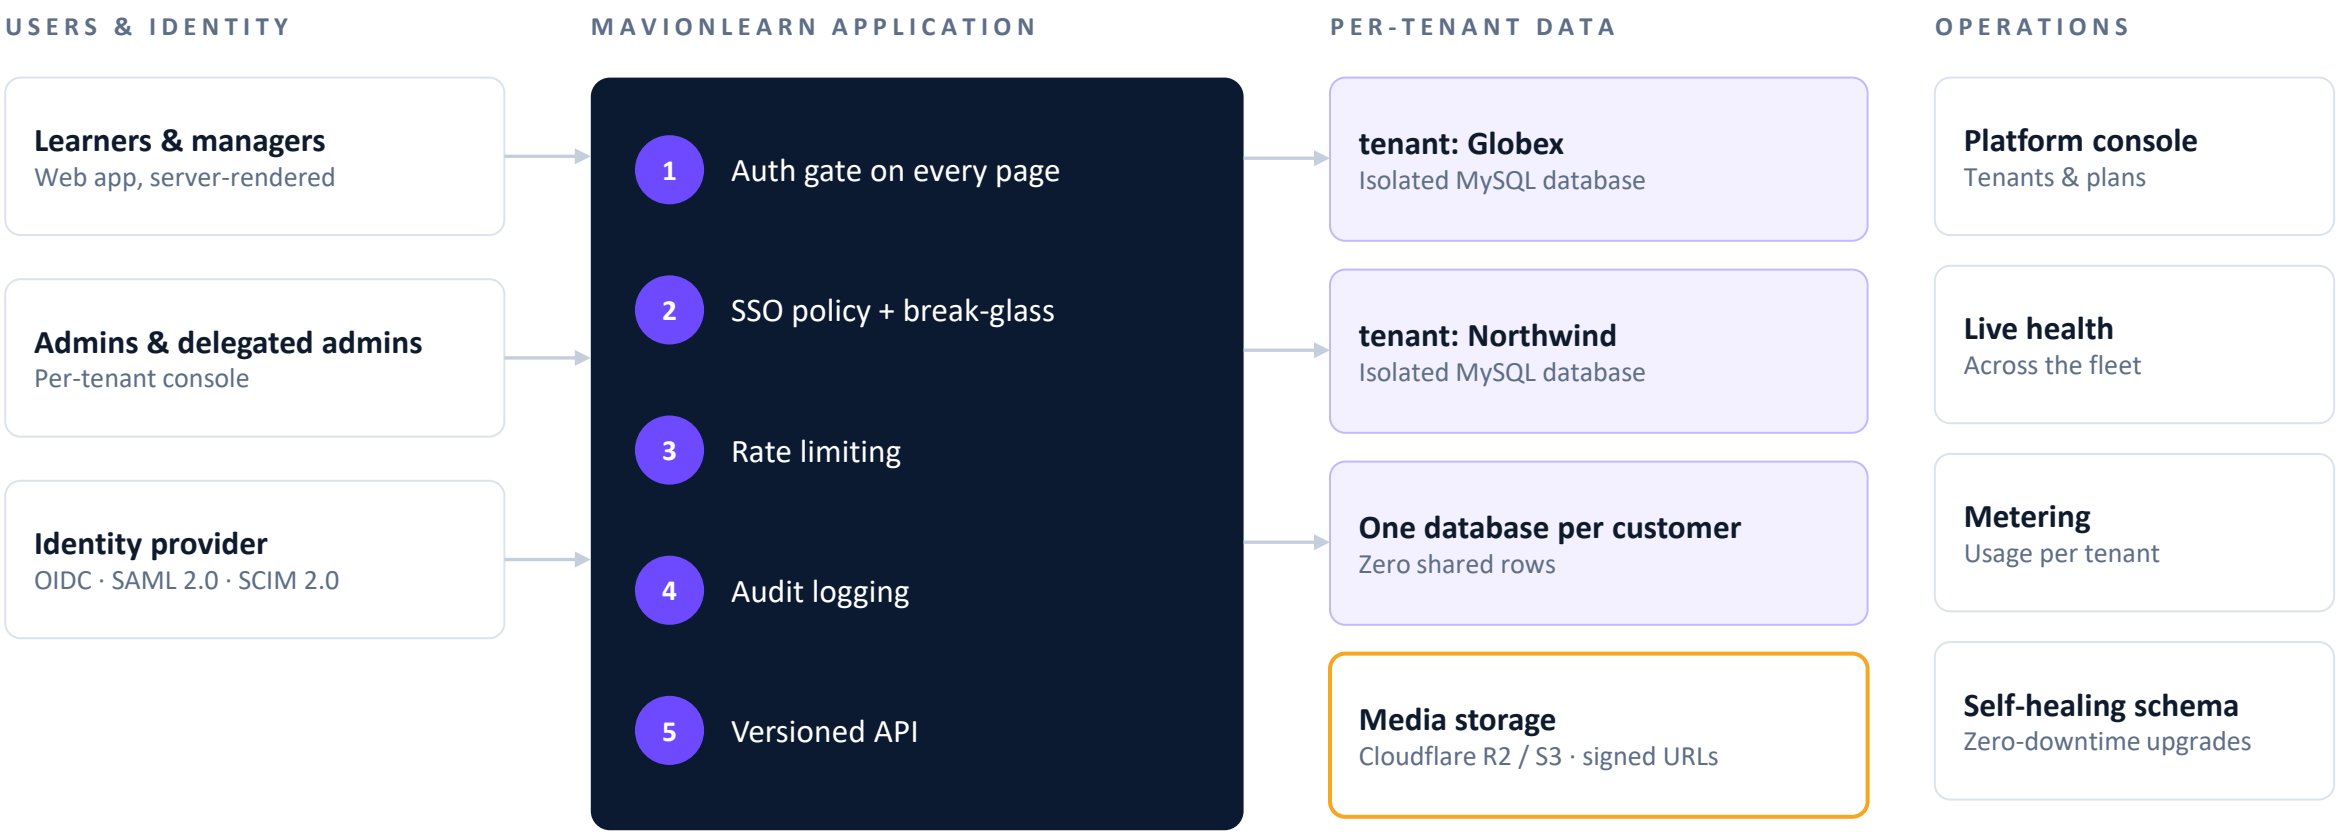

.ics
Calendar invites for sessions

Cloudflare R2 / S3
Per-tenant media storage

Excel and PDF exports are generated in the customer's brand. LTI and API access are part of the Premium tier (per the current price list).

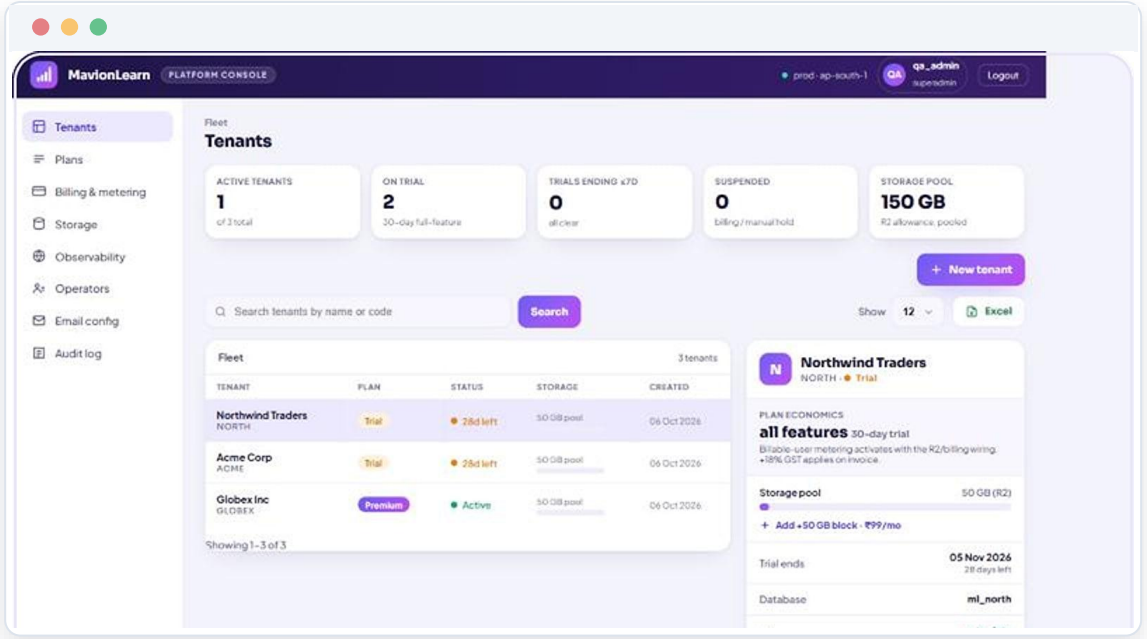

ARCHITECTURE

True multi-tenant isolation: a dedicated database per customer

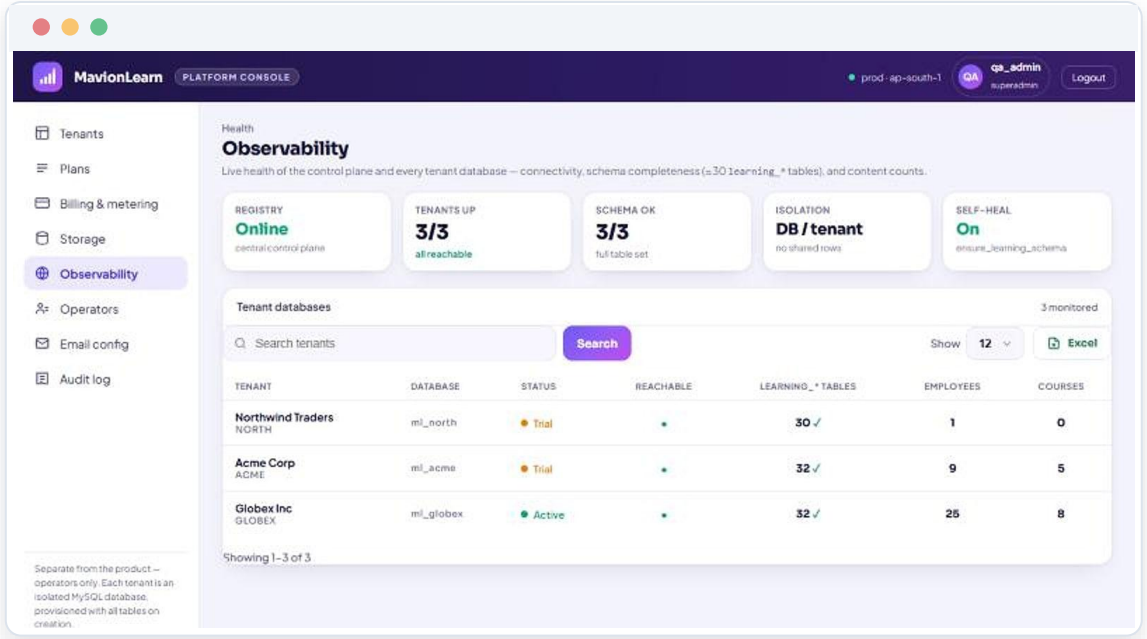

OPERATED WITH CONFIDENCE

Isolation you can verify, health you can see

Platform console: tenants, plans, storage and features (demo data).

Observability: tenant databases, schema status and health.

Verifiable isolation

Every tenant's database listed in the console.

Self-healing schema

Tenants kept current, with no downtime.

Health & metering

Live status and usage across tenants.

White-labelled

Each tenant's brand across app, exports and certificates.

WHY MAVIONLEARN

What changes compared with a generic LMS

	GENERIC LMS	WITH MAVIONLEARN
Capability	Measures completions	✓ Living skill matrix against role targets
Compliance	Tracked by hand	✓ Self-running: assign, remind, certify
Reporting	Generic CSV dumps	✓ Board-ready Excel and PDF in your brand
Identity	Often a paid add-on	✓ OIDC, SAML 2.0 and SCIM included
Isolation	Shared schema	✓ One isolated database per tenant
Learning	Separate live and video tools	✓ ILT, VILT and on-demand together

Capability you can see

Skill levels rise as courses are completed.

Audit-ready by default

Evidence exported in one click.

Identity included

SSO and SCIM in the product.

Isolated by design

A database per customer.

GETTING STARTED

Start with a 30-day, all-features trial

STEP 1

Trial

30 days with every feature, so you can prove value on your own content.

STEP 2

Deploy your way

Multi-tenant SaaS; private cloud or on-premise available on request.

STEP 3

Onboard fast

Import employees by CSV, connect SSO and SCIM, publish courses.

STEP 4

Run your first campaign

Assign a compliance course by audience and watch evidence build.

Pricing is per user per month in INR, with annual billing and volume discounts on request. The tier details are being confirmed and will be shared in your proposal.
