WHO WE ARE

An Indian product company for enterprise applications

COMPANY	**MavionTech Private Limited**
HEADQUARTERS	**Wakad, Pune, Maharashtra, India**
WHAT WE BUILD	Enterprise business applications
OUR PORTFOLIO	Eight platforms; seven ready today, four of them flagship products
WHO WE SERVE	Staffing & HR, IT, EdTech, consulting, finance and service providers, MSMEs

OUR MISSION

Automate and simplify operational workflows with secure, extensible enterprise software that empowers teams to focus on what matters most.

OUR JOURNEY

2023	2024	2025	Today
Training foundation	Product development	Independent product company	Eight enterprise platforms

Momentum with Vision

THE PROBLEMS WE HEAR EVERY DAY

Why everyday operations feel harder than they should

Work lives in spreadsheets

Admissions, stock, attendance and leads live in files and chat groups, so nothing reconciles.

Reconciliation, every single cycle

Attendance to payroll, fees to invoices, stock to books: re-keyed by hand every month.

Leaders wait days for the numbers

Reports are assembled after the fact, when the decision was needed yesterday.

Data walks out with people

Customer numbers, CVs and records sit on personal phones and inboxes.

Compliance rebuilt by hand

GST returns, statutory payroll and certificates are prepared again every period.

No control, no trail

Shared logins and no record of who changed a price, a mark or a payslip.

HOW MAVIONTECH SIMPLIFIES OPERATIONS

One governed system for each part of the business

Capture once

BEFORE

The same data typed into three tools

WITH MAVIONTECH

One record for every student, employee, candidate, customer or product

Automate the routine

BEFORE

Reconciliation and reports built by hand

WITH MAVIONTECH

Payroll from attendance, invoices from fees, reports that build themselves

Control who does what

BEFORE

Shared logins and no audit trail

WITH MAVIONTECH

Role-based access, two-factor where it matters, every change on record

See it live

BEFORE

Numbers arrive days late

WITH MAVIONTECH

Live dashboards for every role, exports in your own brand

Built for how India does business: GST, statutory payroll, INR pricing, Razorpay and WhatsApp, with each customer's data kept separate.

OUR PRODUCT CATALOGUE

Eight platforms, one standard of engineering

Vortex HRMS

FLAGSHIP · READY

Unified People Platform

People platform: HR, Face-AI attendance, leave, payroll and employee self-service on one record.

ProtonNxt

FLAGSHIP · READY

Enterprise ATS

AI-assisted applicant tracking for recruitment firms and talent teams, from requisition to joining.

PragyanNxt

FLAGSHIP · READY

Assessment & Certification

Author, deliver, proctor, score and certify assessments, with verifiable credentials.

Agastya

FLAGSHIP · READY

Cloud School ERP

Cloud ERP for school groups: admissions, academics, fees, transport and parent communication.

MavionLearn

READY · AVAILABLE

Enterprise LMS · Skills & Compliance

Enterprise LMS that scores skills against role targets and runs compliance on its own.

SalesPulse CRM

READY · AVAILABLE

India-first Sales CRM

India-first sales CRM with privacy-masked calling and reports that build themselves.

HeeLIKS

READY · AVAILABLE

Inventory, POS & Distribution

Inventory, point of sale and B2B order-to-cash on one stock ledger, GST-ready.

Vyaas AI

PREMIUM · FUTURE

Enterprise AI Assistant

Enterprise AI assistant: cited answers, finished documents and a coding agent, under your policy.

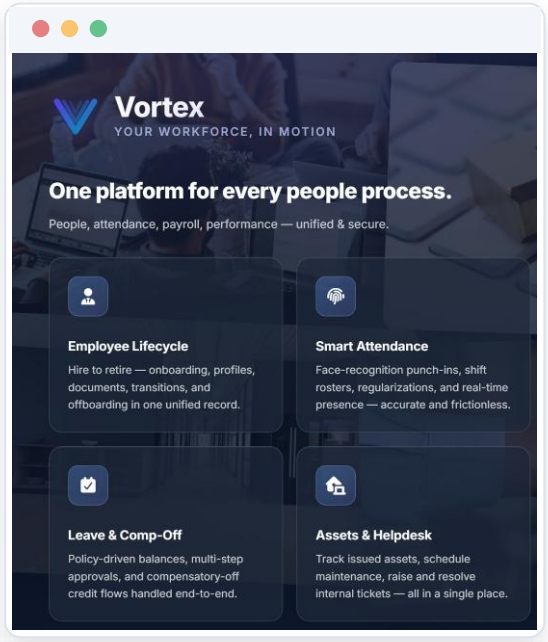

HOW OUR PRODUCTS TACKLE THEM

Each problem, the product that answers it, and how

THE PROBLEM TODAY	OUR PRODUCT	HOW IT IS SOLVED
Attendance-to-payroll reconciliation every month	**Vortex HRMS**	Face-AI attendance and policy-driven payroll on one employee record
Hiring spread across inboxes, sheets and agencies	**ProtonNxt**	One structured pipeline with AI résumé parsing and controlled vendor access
Assessments and certificates that get questioned	**PragyanNxt**	Proctored assessments with an integrity score, and credentials anyone can verify
School operations spread across registers and chat groups	**Agastya**	Admissions to report cards, fees and transport on one governed platform per school
Training that cannot prove capability	**MavionLearn**	A skill matrix against role targets, and compliance campaigns that run themselves
Customer contacts leave with sales reps	**SalesPulse CRM**	Privacy-masked calling, email and WhatsApp, and reports that build themselves
Stock, sales and GST books that never agree	**HeeLIKS**	One append-only stock ledger from purchase order to paid invoice, GSTR-1 ready
AI answers nobody can trust or govern	**Vyaas AI**	Cited answers over your own knowledge, under organisation policy (premium, coming)

REAL PRODUCTS, SHOWN AS THEY ARE

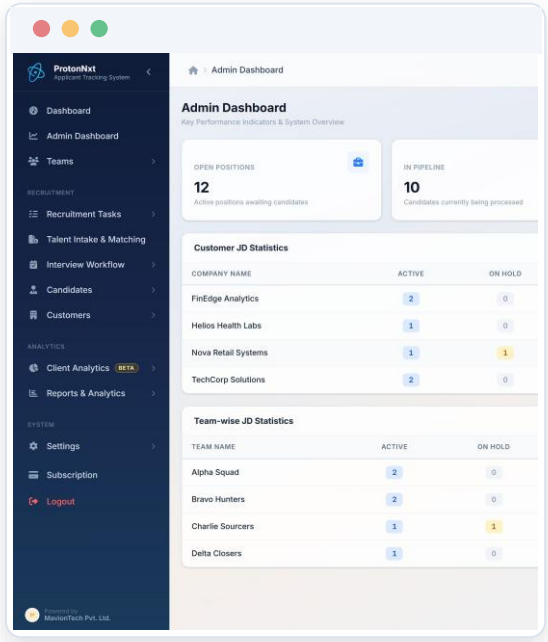

Our four flagship products, as they look today

Vortex HRMS

FLAGSHIP · READY

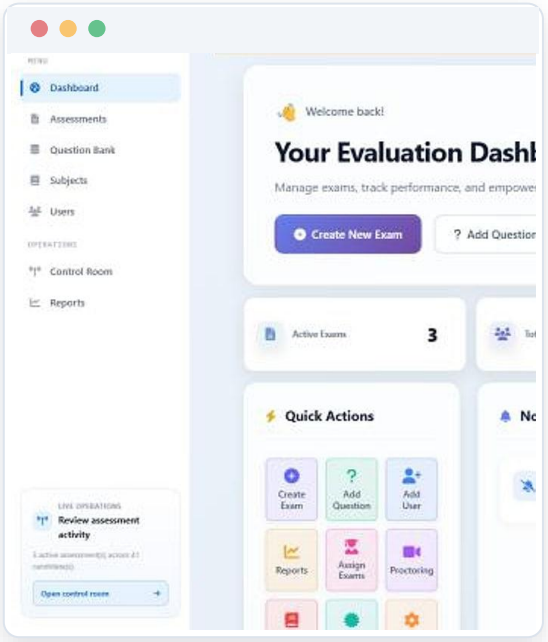

Platform overview from vortexhrms.com.

ProtonNxt

FLAGSHIP · READY

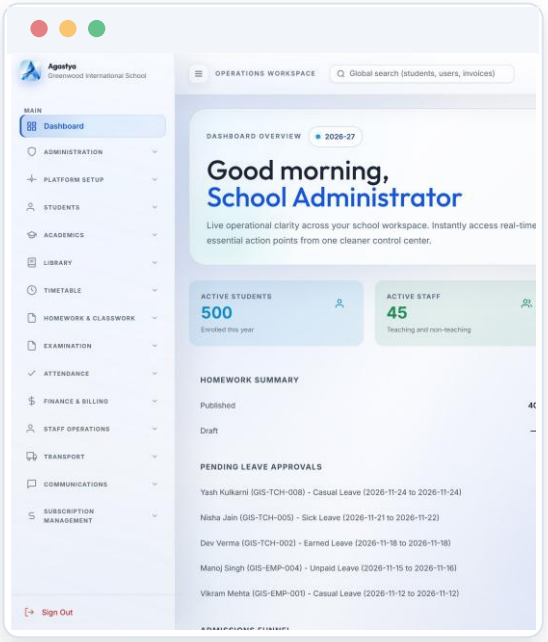

Recruitment admin dashboard (demo data).

PragyanNxt

FLAGSHIP · READY

Evaluation dashboard (demo data).

Agastya

FLAGSHIP · READY

School administrator dashboard (demo data).

Hire to retire. Attendance to payroll. On one record.

FLAGSHIP · READY

HR, payroll & finance · field and shift workforces

THE PROBLEM

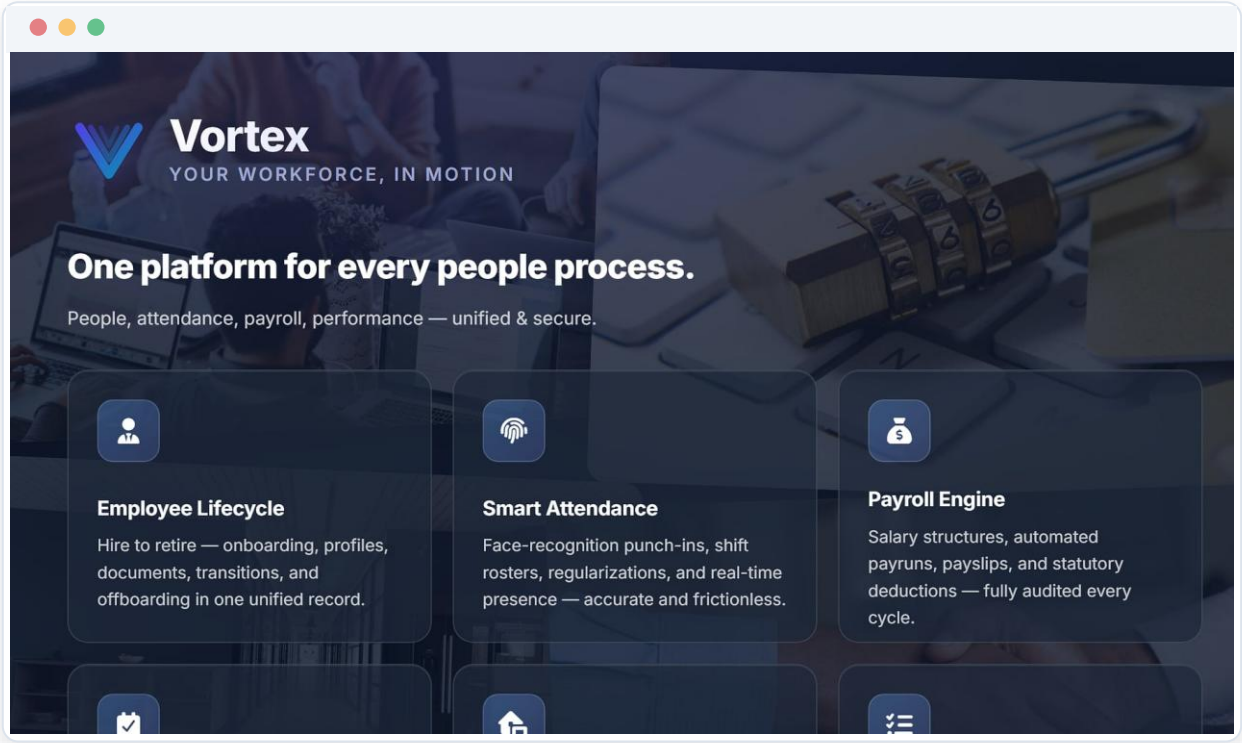

HR, payroll, attendance and helpdesk live in separate tools. Finance reconciles attendance to payroll by hand, and statutory rules keep changing.

OUR ANSWER

One people platform: Face-AI attendance, policy-driven payroll, leave, approvals and employee self-service, with a database per customer.

KEY CAPABILITIES

- ✓ Face-AI attendance with geo-fencing
- ✓ Policy-driven payroll: PF, ESI, PT, TDS
- ✓ Leave, approvals and escalations
- ✓ VortexGo and SnapLens mobile apps

Platform overview from vortexhrms.com.

14	Face-AI	2
modules	attendance	mobile apps

ProtonNxt

From requisition to hire, in one structured pipeline

FLAGSHIP · READY Staffing firms · talent teams · vendor agencies

THE PROBLEM

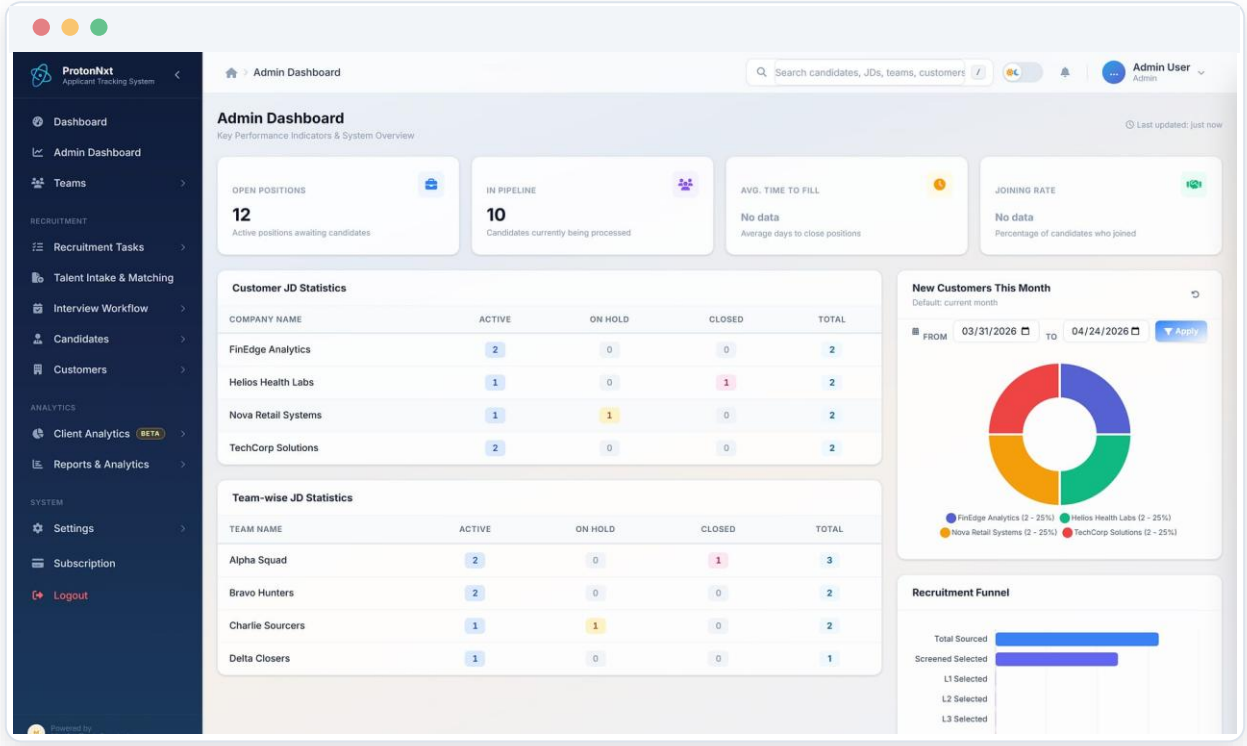

Recruiters screen résumés by hand, ownership is unclear, feedback lives in inboxes, and vendor CVs arrive with no caps, duplicates or audit.

OUR ANSWER

An AI-assisted ATS for recruitment firms and talent teams: sourcing, parsing, interviews, offers, vendors and client insight on one system.

KEY CAPABILITIES

- ✓ AI résumé parsing (OpenAI or Gemini)
- ✓ Pipeline from requisition to joining
- ✓ L1–L3 interviews, structured feedback
- ✓ Vendor portal with caps and duplicate checks

Admin dashboard: KPIs, JD statistics and recruitment funnel (demo data).

15 modules in every tenant

2 AI parsing paths

L1–L3 structured interviews

PragyanNxt

Results you can defend. Credentials anyone can verify.

FLAGSHIP · READY

Corporate hiring teams · academic institutions · certification

THE PROBLEM

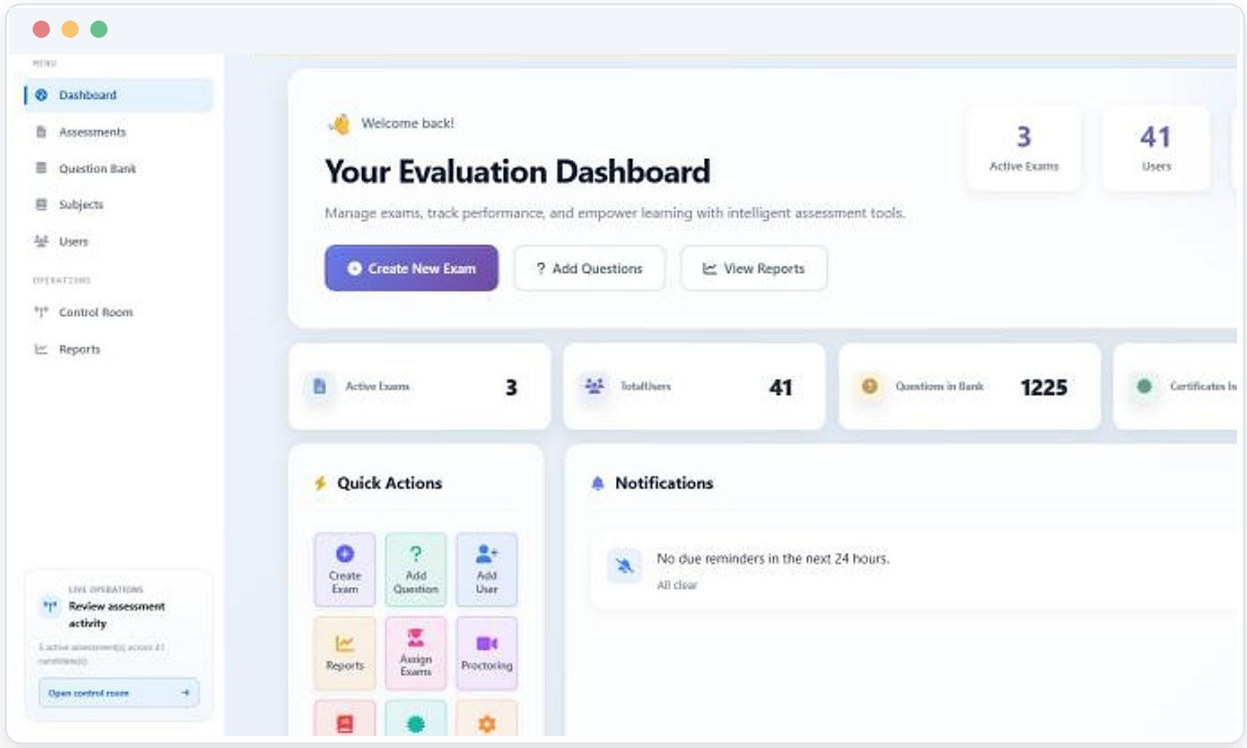

Gamed screening tests push the wrong candidates forward, unmonitored exams devalue certificates, and point tools never talk to each other.

OUR ANSWER

One platform to author, deliver, proctor, score and certify, with an integrity score on every attempt.

KEY CAPABILITIES

- ✓ Question bank with AI generation
- ✓ Live and AI visual proctoring
- ✓ Integrity score on every attempt
- ✓ Signed certificates anyone can verify

Evaluation dashboard: active exams, users and question bank (demo data).

8
integrated modules

Ed25519
signed credentials

5-step
author to certify

Agastya

One operating system for every school in your group

FLAGSHIP · READY School groups & chains · single schools · principals

THE PROBLEM

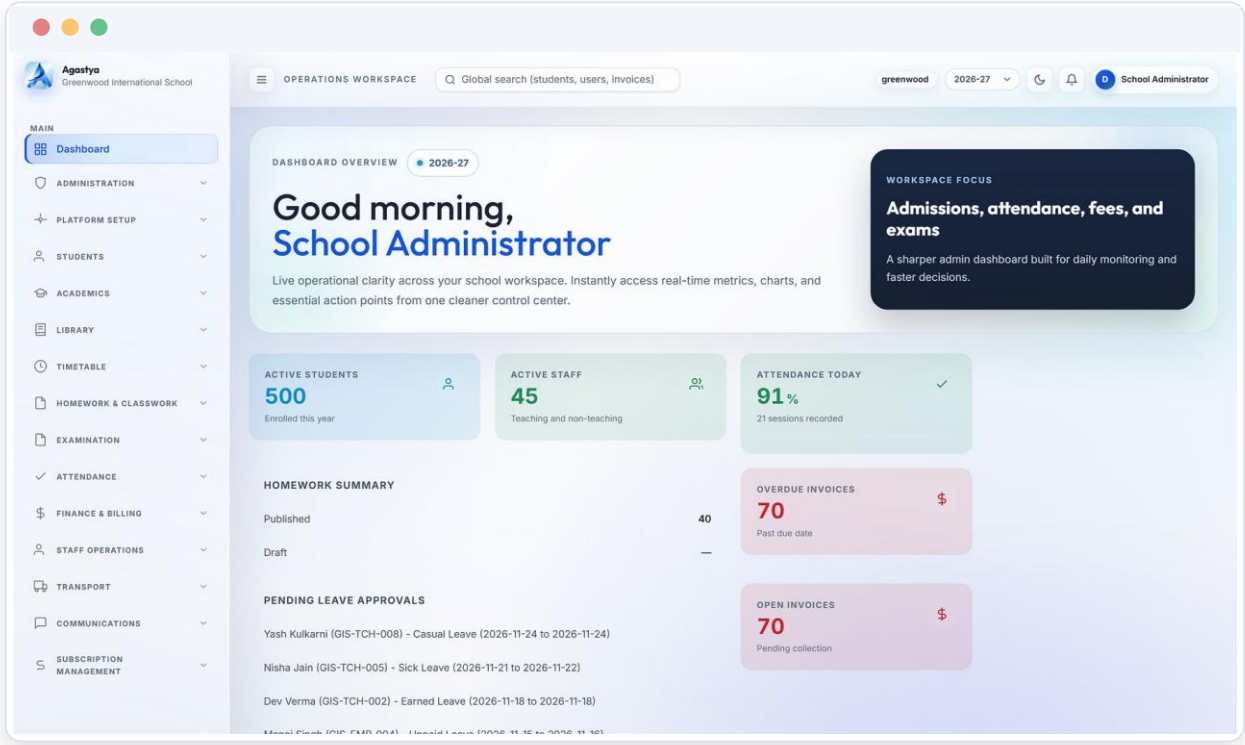

School groups run on registers, spreadsheets and WhatsApp. Nothing reconciles, leaders wait days for numbers, and student data sits on personal phones.

OUR ANSWER

Admissions to report cards, fees to fleet: every department and campus on one governed platform, with each school's data in its own database.

KEY CAPABILITIES

- ✓ Admissions to report cards on one record
- ✓ Fees, invoices and daily collections
- ✓ Transport, library, hostel and staff
- ✓ Parent portal, student app, WhatsApp inbox

School administrator dashboard (demo data).

19 integrated modules

8 role cockpits

96 permission codes

WHY MAVIONTECH

Six reasons to build on MavionTech

01

Real products, shown as they are

Real product screens with demo data, and no invented customers.

02

Your data, isolated by design

A database per customer in seven products; organisation scoping in Vyaas AI.

03

Governed by design

Role-based access, audit trails and session controls you can inspect.

04

Configurable without code

Administrators shape dashboards, fields, workflows and branding.

05

Built for how India does business

GST, statutory payroll, INR pricing and local payment and messaging rails.

06

One partner, eight platforms

One engineering standard and one point of contact across the portfolio.

HOW WE WORK WITH YOU

From a first conversation to go-live, step by step

1 Demo

See the product on scenarios that match yours.

2 Pilot

Prove value on your own data with one team, outlet or campus.

3 Proposal

Scope, plan and commercials confirmed in writing.

IMPLEMENTATION METHOD

Discover

Requirements, process mapping, design and kickoff

Configure

Setup, configuration, integrations and data migration

Validate

User acceptance, performance testing and security review

Go live

Training, launch support, documentation and handover

Cloud SaaS

Multi-tenant, for every product

On-premise or self-hosted

Available for selected products

Managed hosting & support

Backup, recovery and continuous updates

Indicative method; timelines are confirmed during scoping.
